

Good Hemp Genetics Offers High Level CBD Hemp Clones and Feminized Seed to Farms.

Good Hemp Genetics offers feminized hemp seeds for sale through its NC based hemp farm. Good Hemp Genetics also offers hemp clones for as low as \$2 per clone.

CHARLOTTE, NC, UNITED STATES, April 5, 2019 /EINPresswire.com/ -- With [CBD sales expected to hit \\$22 Billion by 2022](#) and the recent passing of the farm bill making hemp cultivation legal, it's no surprise that availability of hemp seeds that produce high levels of CBD are becoming harder to find.

Bill Alessi of Good Hemp Genetics commented, "Since the passing of the farm bill, there has been a high demand for feminized hemp [seed and clones](#). There has been an overwhelming number of farms now planning to grow hemp. Our seed supply will most likely sellout before most farms are planted this season."

Farmers interested in obtaining high quality feminized hemp seed for the 2019 growing season can purchase seeds online from Good Hemp Genetics.

About Good Hemp Genetics

“

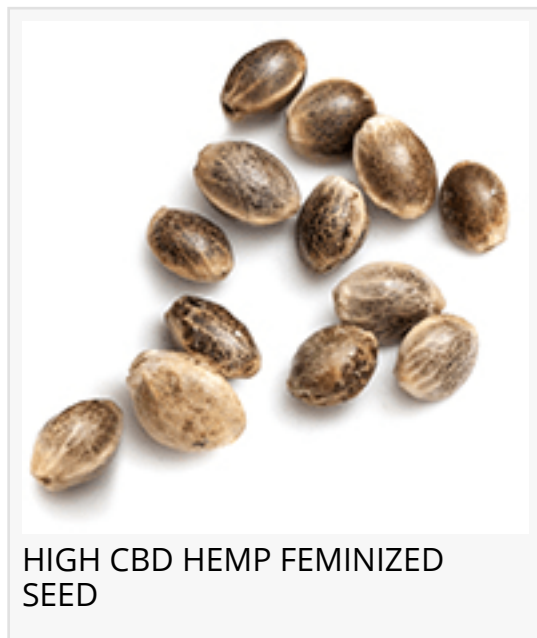

Our seed supply will most likely sellout before most farms are planted this season”

Bill Alessi
