

Transport and Logistics Cybersecurity

Understanding and Mitigating Cyber Risk to the Global Logistics Supply Chain

HOOFDORP, AMSTERDAM,
NETHERLANDS, April 5, 2019

/EINPresswire.com/ -- As the rapid adoption of IT and IoT solutions continues to enable ever greater operational efficiency in the processing of data and critical automation systems, the [logistics and transport sector](#) is facing the task of responding to new threat vectors and an unprecedented level of cyber risk. With an increased reliance on data-led solutions, from smart infrastructure and connected operational technology to the exchange and processing of critical customer data in the cloud, the attack surface has expanded and the risk has become increasingly difficult to quantify.

“

The Cyber Senate are doing excellent work. Such events are so hard to get right, and theirs are of outstanding quality. This is very rare and very hard to do”

*Prof. of Cyber Security Tallinn
University of Technology,
Estonia*

Recent [high-profile cyber incidents](#) have left little doubt as to the seriousness and scale of the disruption that can be caused, and losses sustained across the supply chain when vulnerabilities are exploited. The new paradigm brought about by IT/OT/IoT convergence is forcing an evolution in [cybersecurity strategy](#) from prevention towards attaining the defence in depth to detect, contain and mitigate attacks when our systems are compromised.

The event will bring together cybersecurity strategists from leading global logistics companies, infrastructure operators and supply chain, to better understand the global threat

landscape, cyber risk governance strategy and the latest tools and techniques towards developing detection, response and recovery capabilities.

Key Presenters announced include:

Andy Powell, A P Moller-Maersk, Chief Information Security Officer
Chris Blask, Unisys, Global Director Industrial and IoT Security
José Santos, DB Schenker, CIO Portugal - Head of Infrastructure & Support Iberia
Michal Zdunowski, DB Schenker, Cyber Security Manager
Ruud van Oorschot, Vanderlande, Senior Cyber Security Specialist
Dr Felix Greve, Hamburg Süd, CISO
Christian von Rützen, DACHSER, Department Head IT Security
Callum Wright, Hermes, Security Architect and Deputy DPO
Belle Webster, Port of Amsterdam, Cyber Program Manager
Sudarsan Thattai, Lineage Logistics, CIO
Thomas Pache, RiskPoint, Head of Cyber & Senior Underwriter Tech/Cyber
Craig Dunn, Hiscox, Head of Cyber Services
Chris Kubecka, HypaSec, CEO

Lyzia Iterson, Fluor Corporation, Information Security Leader
Svante Einarsson, DNV GL, Senior Cyber Security Advisor
Henk Bronk, Findect, Cyber Security Consultant

James Nesbitt
