

Sword GRC announces Policy Management Workshop led by Michael Rasmussen, renowned GRC pundit

'Father of GRC' leads workshop on 'Effective, Efficient & Agile Policy Management'

MAIDENHEAD, BERKSHIRE, UK, April 8, 2019 /EINPresswire.com/ -- Sword [GRC](#), a supplier of specialist risk, compliance and governance solutions, has announced that it will be hosting a Policy Management by Design Workshop on Thursday 13th June 2019 at The Dorchester Hotel, London. The event is entitled; 'A Workshop for an Effective, Efficient & Agile Policy Management Program' and aims to provide a blueprint for effective policy management in dynamic, regulatory and risk business environments. Leading the workshop will be Michael Rasmussen, GRC Pundit at GRC 20/20 Research and an internationally recognized expert on governance, risk management and compliance. As the "Father of GRC", Rasmussen was the first to define and model the GRC market in 2002 while at Forrester Research, Inc. and has over 25 years' experience in the field.

The workshop will be highly interactive & provide a learning environment that will enable delegates to fully understand & embrace Policy Management processes & architectures within their organization"

Keith Ricketts, VP Global Marketing, Sword GRC

The workshop will comprise lectures and interactive

sessions on risk, compliance and policy management responsibilities. Attendees will learn approaches on how to:

- oDefine a process lifecycle for managing policies
- oEstablish policy ownership and accountability
- oProvide policy consistency in style and language
- oCommunicate and track policies across extended business relationships
- oDeliver effective training
- oMonitor metrics to establish effectiveness
- oMap policies to objectives, risks, controls, issues, and other GRC areas

Keith Ricketts, Vice President of Global Marketing at Sword GRC said; "The continual growth of regulatory requirements within complex business operations, along with global expansion, demand a well thought-out and implemented approach to policy management. The workshop will be highly interactive and provide a learning environment that will enable delegates to fully understand and embrace Policy Management processes and architectures within their organization.

"We are delighted to have Michael Rasmussen's expertise on the topics of Policy Management strategy and process. His knowledge and experience of technology architectures and solutions will be invaluable to attendees during the workshop and when they come to apply their learning on critical processes across their organization."

Michael Rasmussen of GR20/20 Research said; "Policy Management is an integral component of governance, risk management and compliance (GRC). Policies are critical to all components of GRC as they enable an organization to reliably achieve objectives, while addressing uncertainty, and act with integrity. Policy management provides a process to foster collaboration between functions, enabling the sharing of information to aid the organization in achieving objectives -

and technology plays a critical role. This workshop is an ideal opportunity for attendees to explore how using technology can improve policy management processes and make them more efficient, effective and agile, which ultimately supports corporate GRC initiatives.”
