

TacticalGearOps featured in the latest issue of RiflesHQ

NC, UNITED STATES, April 10, 2019 /EINPresswire.com/ -- [TacticalGearOps](#) has been featured in the latest online issue of RiflesHQ.com. RiflesHQ is a one stop site designed for the hunting and shooting enthusiast. With over 200 dedicated articles the industry RiflesHQ is one of the top sites online where users can learn about the many facets of the industry.

The featured [article](#) helps learn more about the world of ammunition and in particular the 9mm. It's one of the most sought after ammunition due to its popularity among enthusiast today. The [9mm ammo is one of the best for self defense](#) When it comes to technical specifications of 9mm ammo, one of the most important that should be looked at would be the weight. Obviously, the heavier the ammunition is, the more effort will be needed in handling your gun. It is also important to take a look at muzzle energy, which refers to the kinetic energy of the bullet. It refers to how destructive the bullet can be. The heavier it is and the faster it moves, the more destructive it becomes. Lastly, take a look at muzzle velocity or simply put, the speed of the bullet, which is expressed as feet per second.
