## Description

Wiseguyreports.Com Adds "Direct Carrier Billing -Market Demand, Growth, Opportunities and Analysis Of Top Key Player Forecast To 2024" To Its Research Database

Direct carrier billing ("DCB") is an online payment method. It allows users to make purchases by charging payments to their mobile phone bill. This payment method is available to all smartphone and feature phone owners. The only thing needed to confirm payments is a device with a SIM card.

Direct carrier billing provides a bigger payment coverage than traditional payment methods like credit cards. In countries like India, only 2% of all people have a credit card. Globally, there is only 1 credit card owner per 5 mobile phone owners. Even in mature markets with high ownership of bank cards, consumers prefer to pay with direct carrier billing due to its simplicity and security.

In 2018, the global Direct Carrier Billing market size was xx million US\$ and it is expected to reach xx million US\$ by the end of 2025, with a CAGR of xx% during 2019-2025.

This report focuses on the global Direct Carrier Billing status, future forecast, growth opportunity, key market and key players. The study objectives are to present the Direct Carrier Billing development in United States, Europe and China.
