

State of Customer Onboarding 2019 – Regalix reveals the latest trends in this domain

PALO ALTO, CALIFORNIA, USA, April 17, 2019 /EINPresswire.com/ -- [Regalix](#) has released its latest report titled '[State of Customer Onboarding 2019](#)'. The report explores the best customer onboarding practices across the ad-tech industry, the challenges businesses face and the various factors companies consider while implementing a customer onboarding strategy.

The primary research report captures insights directly from key executives in the customer onboarding domain at leading ad-tech companies, revealing current trends in this space.

According to our research, a large majority of organizations have well-defined customer onboarding processes in place to ensure consistent quality. However, the major challenges faced by customer onboarding teams when they implement these processes are the misalignment of functional areas of an organization and lack of resources.

Additionally, most of the companies Regalix surveyed planned to invest in technology to improve their customer onboarding services and tools, which would also include upgrading their popular content assets like [explainer videos](#) and training docs.

“

Customer satisfaction is key and we believe organizations need to have defined customer onboarding processes in place to deliver outstanding experiences.”

Nimish Vohra, SVP – Marketing, Regalix

“Customer satisfaction is key and we believe organizations need to have defined customer onboarding processes in place to deliver outstanding experiences,” says Nimish Vohra, SVP – Marketing, Regalix.
