

# Global Patient Monitoring Devices Market To Grow At An Annual Growth Rate Of More Than 8%

*The Patient Monitoring Devices Market Research Report from The Business Research Company, offers a growth analysis, size, segmentation, geographies and forecast*

LONDON, GREATER LONDON, UK, April 15, 2019 /EINPresswire.com/ -- The global patient monitoring devices market grew from almost 17 billion in 2014 to above \$22 billion in 2018 at an annual growth rate of above 7%. The global patient monitoring devices market is expected to grow from nearly \$22 billion in 2018 to beyond \$30 billion in 2022 at an annual growth rate of more than 8%.

The Business  
Research Company

The Business Research Company

The patient monitoring devices market consists of the sales of patient monitoring devices and related services by entities (organizations, sole traders and partnerships) that manufacture patient monitoring devices used for monitoring vital health parameters.

The growth of the [patient monitoring devices market](#), in the historic period can be attributed to the rise in the global number of the geriatric population, the rise in healthcare expenditure, especially in the emerging economies driven by rapid economic growth, and technological advances in the healthcare industry.

Faster growth of the patient monitoring devices market in the forecast than in the historic period can be attributed to the expected continued economic growth, leading to an expected increase in per capita healthcare expenditure. Increasing prevalence of chronic diseases and expected increases in the adoption of remote monitoring technology will also contribute to the growth.

[Patient Monitoring Devices Market by Types](#) (Fetal and Neonatal Monitoring Devices, Vital Parameter Monitoring Devices, Weight Monitoring Devices, Body Temperature Devices And Remote Patient Monitoring Devices), By End User (Hospitals, Homecare, Diagnostic Centre/Clinics), By Companies and By Regions - Global Forecast Research to 2022 is one of a series of new reports from [The Business Research Company](#) that provides patient monitoring devices market overviews, analyze and forecast patient monitoring devices market size and growth for the patient monitoring devices market, patient monitoring devices industry segments and geographies, patient monitoring devices market trends, patient monitoring devices market drivers, patient monitoring devices market restraints, patient monitoring devices industry's leading competitors' revenues, profiles and market shares. The patient monitoring devices market report identifies top countries and segments for opportunities and strategies based on market trends and leading competitors' approaches.

Where To Learn More:

Read the Patient Monitoring Devices Market by Types (Fetal and Neonatal Monitoring Devices,

Vital Parameter Monitoring Devices, Weight Monitoring Devices, Body Temperature Devices And Remote Patient Monitoring Devices), By End User (Hospitals, Homecare, Diagnostic Centre/Clinics), By Companies and By Regions - Global Forecast Research to 2022 from The Business Research Company for information on the following:

Markets Covered: Patient monitoring devices market, fetal and neonatal monitoring devices; weight monitoring and body temperature monitoring devices; multiparameter monitoring devices; cardiac monitoring devices; neuromonitoring devices; respiratory monitoring devices; hemodynamic monitoring devices; remote patient monitoring devices  
Patient Monitoring Devices Companies Covered: Siemens Healthineers, Medtronic Plc, Philips Healthcare, GE Healthcare, Drägerwerk

Regions: North America, Asia-Pacific, Western Europe, South America, Eastern Europe, Middle East, Africa.

Countries: USA, China, Japan, Germany, Brazil, France, Italy, UK, Australia, India, Spain, Russia.

Time Series: Five years historic (2014-18) and forecast (2018-22).
