

Invite from Ziva Abraham, Chair at SMI's 3rd Annual Pharma Microbiology West Coast Conference 2019

The highly anticipated Pharmaceutical Microbiology West Coast Conference is returning to San Diego, USA, this June.

LONDON, UNITED KINGDOM, April 16, 2019 /EINPresswire.com/ -- SMI Group are pleased to have Ziva Abraham, CEO, Microrite, Inc. as the chair for the two-day conference. Ziva Abraham is the President and Founder of Microrite, Inc., a California based consulting firm providing consulting and training services to pharmaceuticals, biotechnology, medical devices and in vitro diagnostics in the areas of quality assurance, quality control, microbiology, and validation.

SMI Presents the 3rd Annual Conference...
Pharmaceutical Microbiology West Coast
Bolstering Strategies to Maintain Contamination Control

5 - 6
JUNE
2019
Hyatt Regency
Mission Bay,
San Diego, CA, USA

Pharmaceutical Microbiology West Coast 2019

Read Ziva's invitation to the conference below:

"Since the release of the agenda for [SMI's 3rd Annual Pharmaceutical Microbiology West Coast](#), I am delighted to share with you the updated brochure with more speakers and a packed agenda for the two-day conference taking place on June 5th and 6th, 2019 at the Hyatt Regency Mission Bay Hotel in San Diego, CA, USA.

Pharmaceutical microbiology has extended from the laboratory and into the production environment at a rapid pace. Just a decade ago, QC microbiologists had just one function: performing QC microbiology testing. We are at a tipping point where pharmaceutical microbiologists need to have an understanding of, and the ability to, implement microbiological quality control from facility design to final product release. There is no better discipline or department in sterile or non-sterile manufacturing than microbiology to handle this task. But, in order to equip ourselves with knowledge and tools to carry out this formidable role we must learn and expand our knowledge in the areas of cleanroom design and qualification, the

manufacturing process as well as production.

To meet current regulatory thinking and expectations on contamination control as a key component of quality, the role of the microbiologist is more crucial than ever before.

The field of pharmaceutical microbiology is evolving at a fast pace. There is a higher sense of awareness, of microbial contamination risks and the clinical implications of microbes, by regulators and manufacturers alike.

[The West Coast 2019 agenda](#) is filled with exciting topics and speakers who have extensive experience including facing multiple audits as microbiologists or quality personnel. There is no better way to learn and meet current demands than to absorb this knowledge from those who have evolved in their roles from QC microbiologists into contamination control and quality professionals over years facing regulators and enhancing microbial control standards at their respective organizations.

As the chair of this conference, I personally look forward to welcoming you to the event this June in San Diego!"

Plus, there are two pre-conference workshops taking place on Tuesday, June 4th, 2019: Workshop A is led by Ziva Abraham, CEO, Microrite, Inc. on the topic of 'Assessing a Holistic Approach to Microbial Contamination Control'

Workshop B is led by Friedrich von Wintzingerode, Senior Manager gASAT Microbiology, Global QC, Genentech & Farnaz Nowroozi, Scientist & Manager, Genentech on the topic of 'Reviewing the Road Map to a Holistic Approach to Microbial Impurities, Endotoxins & LER'

The last early bird discount of \$100 is expiring on Tuesday, April 30th, 2019. Register soon to guarantee a place at <http://www.pharma-microbiology-usa.com/PR3>

THE EVENT IS SPONSORED BY: Associates of Cape Cod, bioMérieux, Bioscience International, Charles River, DuPont, FujiFilm & Microbiologics

If you are interested in sponsoring, exhibiting or speaking at this event, please contact Alia Malick, Director, on +44 (0) 20 827 6168 or email amalick@smi-online.co.uk
