

# Novel Coworking debuts second location in Minneapolis

---

MINNEAPOLIS, MN, UNITED STATES, April 17, 2019 /EINPresswire.com/ -- Workspace provider [Novel Coworking](#) is debuting private offices, office suites, and coworking space at its new TriTech Center location, now its second location in [Minneapolis](#). The company acquired the 331 2nd Ave S building in October and has renovated it into state-of-the-art workspace for one to 500-person companies. Novel Coworking will host a Grand Opening Party that is open to the public on May 2 from 4pm to 7pm; attendees can [RSVP here](#).

"We are excited to support Minneapolis' entrepreneurial community with beautiful, affordable space to grow their businesses," said Bill Bennett, Founder of Novel Coworking. "We have seen huge demand for flexible, customizable workspace from small to mid-sized businesses, as well as enterprise companies."

Built in 1982, the 113,987-square-foot building is nine floors high and features skyway connectivity. By purchasing the buildings where it operates, Novel Coworking is able to invest in infrastructure improvements including fiber internet and custom-built suites for 10 to 500-person teams, all while keeping rents 30-50% lower than competitors.

"When I started my first business in 2007 and began my office space hunt, I was turned down by numerous brokers because I wasn't looking for a three to five-year lease," Bennett said. "I didn't know yet whether I was going to have one employee or 100, and I didn't want to start a construction project or make a long-term commitment."

Fast forward ten years, and Bennett now runs a business that supports companies of all sizes with the flexibility and room to scale up and grow on their terms. With pricing starting at \$129 a month for coworking memberships and starting at \$425 a month for private offices, Novel Coworking provides small businesses and entrepreneurs with high-caliber amenities that are typically only available to large companies.
