

Asia-Pacific the largest Region in the global bottled water market

The Bottled Water Market from The Business Research Company, offers a sales Strategies, growth analysis, size, segmentation, geographies, forecast and more.

LONDON, GREATER LONDON, UK, April 17, 2019 /EINPresswire.com/ -- The bottled water market in Asia-Pacific is the largest in the world by volume, accounting for around 42% of global

bottled water consumption, and the second largest in the world in terms of value. Increasing hygiene standards along with poor public water infrastructure in Asia-Pacific countries are key factors fueling the growth of the bottled water industry in the region.

The bottled water market in the Americas is the second largest in the world by volume, accounting for around 31% of global bottled water market consumption. The region ranks first in terms of value due to the higher average price per liter than other regions, and high consumption of premium bottled water.

The [bottled water industry](#), includes establishments involved in purifying and bottling water. Companies in the bottled water industry are mainly involved in purifying water, and packaging, marketing and distributing it in the form of bottled or canned water. The bottled water products are sold to either the distributors or end user outlets. Distributors in the bottled water industry further charge commission on the products depending on factors such as availability, pricing and relationship between the two entities. The end users of bottled water products include institutions and retail customers. Institutional customers include establishments such as restaurants, offices and hotels. They purchase bottled water from the wholesalers or distributors.

The global bottled water market was valued at over \$210 billion in 2017 and is expected to reach above \$350 billion in 2021, growing at a rate of nearly 10% during 2017-2021. Growth of the global bottled water market can be attributed to the awareness about purity and safety of bottled water, lack of well-developed public water infrastructure, and growing demand for functional water.

Bottled Water Market By Product (Sparkling, Still, Flavoured and Spring), By Packaging (Plastic, Glass, Can, Drum and Others), By Companies and By Regions – Global Market Size and Forecast to 2021 is one of a series of new reports from The Business Research Company that provides bottled water market overviews, analyzes and forecasts bottled water market size and growth for the global bottled water market, bottled water market share, bottled water market players, bottled water market size, bottled water market segments and geographies, bottled water market trends, bottled water market drivers and bottled water market restraints, bottled water
