“

[W]e must act fast to turn around the downward spiral of environmental destruction by broadly educating our neighbors and taking action ourselves to directly clean up our communities.”

The Way to Happiness Association Tampa Bay focused its message on changing attitudes. They distributed over 600 of [L. Ron Hubbard's](#) The Way to Happiness booklets, in which one precept to happiness advises: “Safeguard and Improve the Environment.” In that 1981 booklet, L Ron Hubbard wrote, “Cut down too many forests, foul too many rivers and seas, mess up the atmosphere and we have had it. The surface temperature can go roasting hot, the rain can turn to sulfuric acid. All living things could die.”

According to Keep America Beautiful, litter is another environmental problem and it's costly; \$11.5 billion are

spent every year to clean up litter in the USA.

Tanja Cranton, Executive Director of The Way to Happiness Association Tampa Bay, said, "Together we can save the planet but we must act fast to turn around the downward spiral of environmental destruction by broadly educating our neighbors and taking action ourselves to directly clean up our communities."
