

Global Chemical Fertilizers Market Trends, Opportunities, Drivers And Restraints

The Chemical Fertilizers Market from The Business Research Company, offers a sales Strategies, growth analysis, size, segmentation, forecast and much more.

LONDON, GREATER LONDON, UK, April 18, 2019 /EINPresswire.com/ -- As a major trend in the global chemical fertilizers market many fertilizers manufacturers are adopting IoT (Internet of Things) technologies to

connect manufacturing equipment and smart devices to gather real time insights and identify improvements in the manufacturing processes. The data obtained is processed, analysed and interpreted by plant managers to improve quality and achieve optimum production levels. For example, smart systems give information on the working condition and performance of chemical reactors with embedded software and analytics tools to notify plant operators and managers on possible machine breakdowns. This is helpful in reducing manufacturing downtimes and potential revenue losses.

The fertilizers market consists of the sales of fertilizers by entities (organizations, sole traders or partnerships) that manufacture nitrogenous or phosphate fertilizers materials; produce fertilizers from sewage or animal waste; manufacture nitrogenous or phosphate materials and mix with other ingredients into fertilizers; and/or mix ingredients made elsewhere into fertilizers.

A fertilizer is defined as a substance such as a chemical mixture which is applied on soil or plants to supply nutrients essential to the growth of the plants. This report covers only chemical fertilizers defined as synthetically manufactured fertilizers. The major drivers of the global chemical fertilizers market are intensive farming techniques, adoption of advanced technologies, and global population growth.

[Chemical Fertilizers Market](#), Global Opportunities And Strategies To 2022 is one of a series of new reports from The Business Research Company that provides chemical fertilizers market overviews, analyzes and forecasts chemical fertilizers market size and growth for the global chemical fertilizers market, chemical fertilizers market share, chemical fertilizers market players, chemical fertilizers market size, chemical fertilizers market segments and geographies, chemical fertilizers market trends, chemical fertilizers market drivers and chemical fertilizers market restraints, chemical fertilizers market's leading competitors' revenues, profiles and market shares. The chemical fertilizers market report identifies top countries and segments for opportunities and strategies based on market trends and leading competitors' approaches.

Where To Learn More:

Read the [Chemical Fertilizers Global Market Opportunities And Strategies To 2022](#), from [The Business Research Company](#), for information on the following:

Markets Covered: Fertilizer market; By type of nutrient (Nitrogenous Fertilizers, Phosphate Fertilizers, potash fertilizers); By crop category (Cereals fertilizers, Oilseeds fertilizers, Fruits fertilizers, Vegetables Fertilizers); By method of application (Broadcasting fertilizers, Drop Spreading/Placement fertilizers, Fertigation Fertilizers, Foliar Spray fertilizers); Global Chemicals Market

Fertilizer Companies Covered: Nutrien Ltd, Yara International, Eurochem Inc, Sinofert Holdings Ltd., Uralkali, Coromandel International Ltd, Bunge Ltd.

Regions: North America, Asia Pacific, Western Europe, South America, Eastern Europe, Middle East, Africa.

Countries: USA, China, Japan, Germany, Brazil, France, Italy, UK, Australia, India, Spain, Russia.

Time Series: Five years historic (2013-17) and forecast (2017-21).

Data: chemical fertilizers market size and growth for global, 7 regions and 12 countries; global chemical fertilizers market size, growth and segmentation by type of nutrient, 2014 – 2018, volume (thousand tonnes), global phosphate fertilizers market, 2018, by type of nutrient subsegment, volume (thousand tonnes), global potash fertilizers market, 2018, by type of nutrient subsegment, volume (thousand tonnes), global chemical fertilizers historic market, segmentation, fertilizers use by crop category, 2014 – 2018, volume (thousand tonnes), global chemical fertilizers historic market, segmentation, fertilizers use by method of application, 2014 – 2018, volume (thousand tonnes), global chemical fertilizers historic market, segmentation, fertilizers use by method of application, 2014 – 2022, value (\$ billion), financial performance 2013-21 for Nutrien Ltd, Yara International, Eurochem Inc, Sinofert Holdings Ltd., Uralkali, Coromandel International Ltd, Bunge Ltd; global chemicals market size and growth rate 2013-17 and 2017-21, global chemicals market.

Other Information: global chemical fertilizers historic regional and country analysis, chemical fertilizers global market customer information, chemical fertilizers global market regional and country analysis, chemical fertilizers global market comparison with macro economic factors, chemical fertilizers market size, percentage of GDP, per capita average chemical fertilizers expenditure, global, chemical fertilizers market comparison with macro economic factors across countries, chemical fertilizers market size, percentage of GDP, by country, per capita average chemical fertilizers expenditure, PESTEL analysis, drivers and restraints, trends and opportunities, customer and operational insights, fertilizer market by country covering regulatory bodies, associations, investments, and competitive landscape; fertilizer market trends and strategies.

Strategies For Fertilizers Manufacturers: The report identifies over 22 strategies for fertilizers manufacturers including those being pursued by companies in the fertilizers market and those suggested by trends in the market. Strategies described include EuroChem Inc.'s strategy of expanding its distribution network to gain access to important markets by acquisitions such as that of its purchase of a 100% interest in Agricola Bulgaria, Bulgaria's leading fertilizer distribution company, and Yara International's strategy of strengthening its R&D department to improve its product offerings.

Key Opportunities In the Chemical Fertilizers Market: The report reveals the global chemical fertilizers industry will put on most \$ sales up to 2022.

Sourcing and Referencing: Data and analysis throughout the report are sourced using end notes.

Number of Tables: 155

Interested to know more about The Business Research Company?

The Business Research Company has published over 300 industry reports, covering over 2400 market segments and 56 geographies. The reports draw on 150,000 datasets, extensive secondary research, and exclusive insights from interviews with industry leaders.
