

Parker Prescott Capital Management Reports Q1 Performance of 2019

Small Texas-Based Capital Management Company Sees Impressive Return

PLANO, TEXAS, USA, April 22, 2019 /EINPresswire.com/ -- [Parker Prescott Capital Management](#) is pleased to report its Q1 performance of 2019 (cumulative, un-audited) was an average return of 9.18%. The return was not surprising given the company's investment approach and the overall timing of the bounce back in the S&P 500.

Additionally, the company maintained a strong cash position throughout Q4 2018; with minimal portfolio turnover in order to facilitate long-biased equities trades of well-known brands if the opportunity presented itself.

The company deploys a conservative stock trading strategy that steers away from day-trading to focus more on a long term, dividend producing, low turnover, and low commission fee customer portfolio. The company's client stock portfolios consist of well-known brands that produce stable and increasing quarterly dividends.

President & CEO, [Chris D. Bentley](#), stated, "I'm sure some Wall Street traders and other Financial Advisors are going to throw shade on this number but we couldn't be more excited for our clients."

About the Company:

Parker Prescott Capital Management is a [Plano, Texas](#) based independent Registered Investment Advisory firm that has a diversified, value-oriented approach with a focus on both long and short term investing opportunities in publicly-held companies.
