

Telnyx Sponsors SpeechTEK 2019

CHICAGO, IL, UNITED STATES, April 26, 2019 /EINPresswire.com/ -- Telnyx, the world's only self-service, full-stack communications platform, is a Gold Sponsor of SpeechTEK 2019, the world's leading speech technology and AI conference, taking place April 29-May 1 at the Renaissance Washington, D.C. Hotel.

The Telnyx team will be at the Customer Solutions Expo (booth 501) throughout the week to demonstrate how they are helping customers build web-centric, AI-ready communications.

"The Telnyx network was built for the future of communications, so SpeechTEK is a great opportunity for us to show what we can do," said David Casem, co-founder and CEO of Telnyx. "This will be our first time at the conference, and we're excited to talk to everyone about how the Telnyx platform is helping customers build next-gen communications with advanced voice and messaging features right in their own applications."

Casem will be joining a panel discussion at SpeechTEK titled "Problem Solving in the Age of Microservices." The panel will discuss the possible solutions to problems in a multi-vendor/microservices environment.

"Today's businesses often rely on multiple vendors for day-to-day functionality, including communications," said Casem. "But relying on microservices from multiple vendors can complicate things. If your resources are spread thin and you can't properly manage all your vendors, it's easy for things to slip through the cracks, resulting in performance issues or errors going unnoticed. Not everyone can rely on a single vendor for all their needs, so we want to share some tips for being successful in a multi-vendor environment."

The panel discussion will be held Tuesday, April 30, from 11:45 a.m. to 12:30 p.m.
