

New Book: 'The Medusa Enigma' reveals the corruption of USA's legal and medical systems'

Dino Panvini, MD, describes how he escaped attempted murder, near death experience and corruption of the legal and medical system in USA.

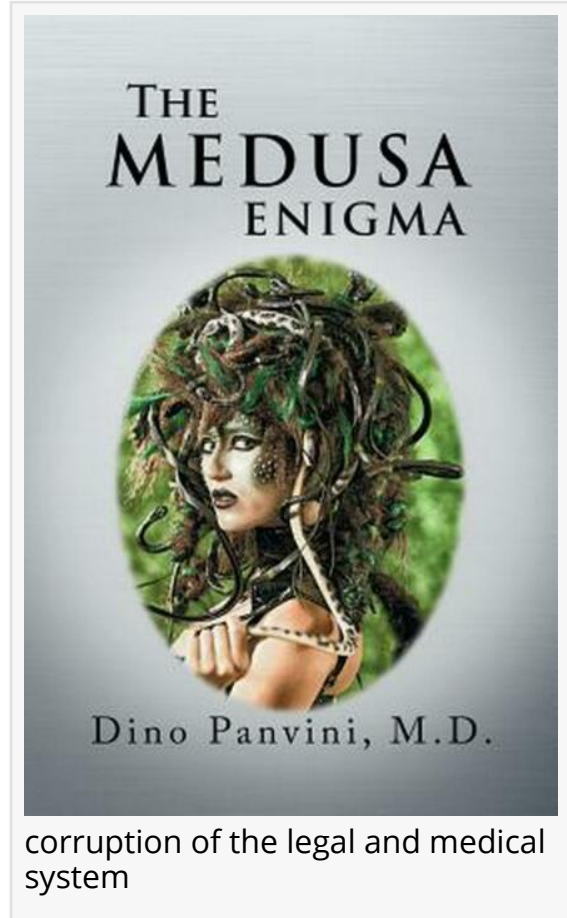

NEW YORK, NY, UNITED STATES, April 26, 2019 /EINPresswire.com/ -- New York, NY – New Book: In "[The Medusa Enigma](#)", nonfiction, (published by Xlibris), author [Dino Panvini, M.D.](#), reveals the corruption within the medical and legal systems in America, and how lawyers are injuring innocent people for malicious intent yet not policed by the American Bar Association.

Dino Panvini, M.D. says: 'Everything you are about to read is true. Although you may think this is a work of fiction, it is not! This book will take you deep inside the corruption of the United States' legal and medical systems, and how it led to my near-death experience and multiple attempts on my life.'

Through the book, readers will learn about the actions taken against Panvini's professional career, personal life, and safety with multiple murder attempts and fraudulent allegations by the [legal medical system](#) — all because he did the right thing. The book chronicles the battles Panvini faced against a conspiracy of malignant lawyers with immoral ethics and criminal behavior while colluding with a very corrupt medical system. According to Panvini, the origins of these actions are from a "psychologically deranged drug addicted" ex-wife.

The book describes real events that have taken place as the reader will be enchanted with the drama, corruption and real-life attempted murders. "[I want the readers] to understand the reality of the corruption of the legal and medical system in the United States, and how important it is to change the present corruption and to allow for a policing agency to monitor the legal system," says Panvini.

Ultimately, Panvini invites readers to witness a non-fiction fast-paced thriller of a doctor escaping attempted murder, corruption by the legal and medical system and a bizarre divorce like no one have ever heard. The name of the book has cryptic message. Let's see if readers can decipher the message, as of today only one reader has deciphered the message. Enjoy your read because my readers tell me that is a page turner. "Once I started I couldn't put it down". Another reader says: "Best book I've read in a long time. It was a very easy and exciting read. It was an eye opener about how evil people can be, and so greedy. I kept wondering how do these people look themselves in the mirror, and not be mortified at what they have become. Dino Panvini MD is amazing how he never gave up the fight for what he knew was right and what he believed in. Even at his darkest moments his faith got him through. He is a great inspiration for people when

they are going through tough and unfair times....God does have a plan for us and will give us the strength to keep going...Thank you Dino, for sharing your story."
