

# North Star Kitchen and Bath Remodels Ready To Build Dream Kitchens All Throughout Treasure Valley

*As the seasons change, the expert kitchen renovation contractors and designers from North Star Kitchen and Bath Remodels are gearing up.*

BOISE, IDAHO, USA, May 2, 2019 /EINPresswire.com/ -- The experienced kitchen contractors in Boise from [North Star Kitchen and Bath Remodels](#) are looking forward to another big home improvement season for all their residential kitchen and bath renovation customers in Boise and throughout the state of Idaho. As the weather starts to get a bit nicer, and people start thinking about Spring cleaning, it doesn't take long for the idea of a complete kitchen remodel in Boise to begin to formulate in the minds of homeowners all over the country.

a project photo of a full kitchen remodel in Boise

With over a decade of experience in bath and kitchen remodels, these dedicated professional builders strive to provide affordable, high-quality kitchens and bathrooms to every client that they serve. As a locally owned and operated company, the team takes pride in knowing that they can give each person the same personal attention. It's something that they say the other more massive franchises just can't provide. They don't have the time or the desire to build relationships with their customers, but the qualified contractors from North Start Kitchen and Bath Remodels care more about their customer's complete satisfaction than they do the paycheck. They want their clients to feel completely comfortable coming back to them each time they have a new idea for a kitchen or bath renovation in

“

North Star Kitchen and Bath Remodels is proud to offer stunning kitchens and baths to our clients. The best compliment we ever get is a trusting referral!”

Boise or the surrounding areas.

Most of the [kitchen remodeling contractors in Boise](#) and throughout the state of Idaho are going to meet with their customers and find out what they want in terms of design, kitchen cupboards, countertops, flooring, and appliances. Then, they put together a bill & ask the homeowner to pay for most or all of the job before they ever get started. It's not uncommon, because kitchen contractors have to protect themselves from customers that don't want to pay for the work after they have already completed the job. However, a lot of those kitchen renovation experts don't have the same confidence in their abilities as what the skilled professionals at North Star Kitchen and Bath Remodels have. They only request 50% payment upfront to cover the cost of the

customized materials that they have to order and are going to be using. Then, the customer pays the rest of the bill only when they are 100% satisfied with their product.

The bath and kitchen contractors in Boise that work with the team at North Star Kitchen and Bath Remodels get excited about this time of the year because they know that they are going to get to spend more time doing exactly what they love. These home improvement experts aren't in the kitchen and bath renovation in Boise business for the sole purpose of going to work and collecting people's money. They do this type of career because they are genuinely passionate about seeing their clients' faces light up at the sight of their new kitchen or bath.

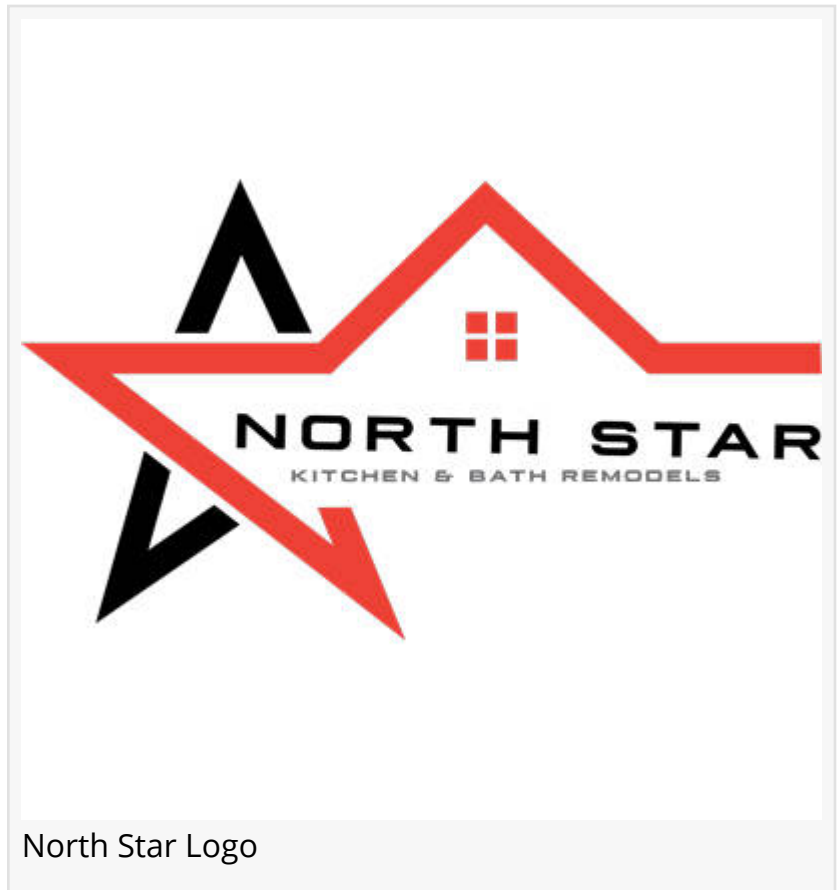

From the very initial phone call for a FREE estimate of a new kitchen in Boise, the customer service representatives, design team, and contractors work closely with every

customer to ensure everything meets or exceeds what they are expecting. This type of project is a significant investment, so these professionals are well aware that there is no room for error. The attention to detail is second to none, and that's how they are capable of providing a flawless finish every time. They can assist with everything included with a full-scale kitchen renovation like granite countertops, superior flooring, and custom kitchen cabinets. No two jobs or customers are the same in preference or budget, and that's why these kitchen contractors in Boise take the time to sit down and fully understand the vision of each person they are working with.

When customers start doing their cleaning and organizing with the rising temperatures, they commonly will begin to think about the storage space that they have available. It's a common inquiry at North Star Kitchen and Bath Remodels. The design team has access to an endless amount of options when it comes to custom kitchen and bath cabinets that are both beautiful and beneficial. Not only do they strive to give people the kitchen or bath that they've always wanted in terms of appearance, with over ten years in the industry, they know how to also make those spaces as functional as possible. The kitchen contractors need to see the area and be given a budget, and the customer will soon have their options for a completely new, more efficient, high-quality living space.

The contractors from North Star Kitchen and Bath Remodels want their potential clients to know that they are prepared and excited to start working on new kitchen and bath renovations today! They like homeowners to remember that when they get hired for a project like this, the customer is in charge from start to finish. Even though they are doing the work, they are only following the specifications set forth by the client. They are always prepared to answer questions, make changes, or discuss what's going on so that each person that they work for can have peace of mind that their substantial [kitchen renovation in Boise](#) is going to be completed without any issues.
