

# Lockdowel Celebrates 4th Anniversary of Their Invisible EClips Fasteners with 10% Off All Products May 1-14

*Lockdowel's Invisible, Slide-to-Lock, Tool-less Fasteners Changed Woodworking Four Years Ago -- Try Them Today for 10% Off*

FREMONT, CALIFORNIA, UNITED STATES, May 1, 2019 / EINPresswire.com/ -- Four years ago [Lockdowel](#) engineers invented the EClips slide-to-lock fastener design that cuts assembly time for cabinets, furniture and fixtures by 60%. To commemorate this pivotal day in the company's history they are offering their entire line of fasteners, drawer slides, hinges, router bits and more at 10% off May 1 through May 14. Everything on the company's [online store](#) is discounted when customers purchase \$250 or more of product.

Lockdowel slide-to-lock fasteners are invisible, strong and assemble fast! Their invention is changing the way wood products are built.

“This was truly a turning point in Lockdowel’s history,” CEO Stephen Anderson says. “This was the day that Lockdowel leaped to the front of the tool-less, glue-less, faster, better wood fastening race. We recognize accomplishments like these because we have come so far!”

“

This was the day that Lockdowel leaped to the front of the tool-less, glue-less, faster, better wood fastening race. We recognize accomplishments like these because we have come so far!”

*Stephen Anderson, CEO  
Lockdowel*

Lockdowel’s EClips fastener line includes the company’s signature neon green, slide-to-lock Barbed Channel Lock Fastener. This fastener also comes in metal and a mini model for smaller boards. Also in the EClips family is the company’s H-Clip fastener. “The difference between the Barbed Channel Lock and the H-Clip Fastener is that the Barbed Channel Lock can be unassembled and reassembled quickly and easily,” Anderson explains. “All EClips fasteners are invisible when secured.”

According to the company both the regular size Barbed Channel Lock and the H-Clip Fastener have undergone strenuous testing to prepare for the new AWI standard tests. To date, the fasteners have exceeded commercial strength tests and even institutional standards for woodworking fasteners, holding more than 1,000 pounds on a one-inch shelf.

The Lockdowel 10% savings promotion is in addition to:  
60% Savings (or more!) in assembly Labor Costs gained by using Lockdowel fasteners and drawer slides  
80% Savings in Shipping and Warehousing when Flat-packing with Lockdowel  
The company's already reduced 50% OFF Lockdowel Evaluation Kits.  
All orders from the company's online store at <https://lockdowel.odoo.com/shop> are eligible and the discount will be given at check out.
