## Report Scope:

The scope of the report includes, a general outlook of water management market, with the scope limited to reports published by BCC Research during the years 2017 and 2018. It covers the overview and clear understanding of the global market scenario of the water management and analyze global market trends, with market data for 2017 considering as the base year, 2018 as the estimate year and forecast for 2023 with projection of compound annual growth rate (CAGR) during 2018 to 2023. Market data in value is provided at global and regional level for all the segments of water management.

This report segments the market into three major segments, namely, by equipment, by chemical and by infrastructural. The equipment discussed in this report are water testing equipment, sensors used in water treatment, water meters, water quality sensors and water leak detection

systems. The chemical segment includes chemicals used for water treatment and water softeners. The infrastructural includes water recycling and reuse and water supply and irrigation systems.

#### Report Includes:

- 36 data tables and 21 additional tables
- A descriptive study of the global markets for water management
- Analyses of global market trends with data from 2017 and 2018, and projections of compound annual growth rates (CAGRs) through 2023
- Regional dynamics of the water management market covering North America, South America, Europe, APAC and rest of the world
- Quantitative study and trend analysis of water management market by three major segments, namely equipment, chemical and infrastructural development, and various other sub-segments such as water testing equipment, sensors used in water treatment, water meters, water quality sensors and water leak detection systems etc
- A look at the regulatory norms and updates imposed by the government for discharge and disposal of wastewaters
- Discussion of competitive strategies employed by global major players, patent evaluation and driving forces of the water and wastewater management market
- Company profiles of the leading market players, including 3M Co., ABB Ltd., Agilent Technologies, Inc., Danaher Corp. and Thermo Fisher Scientific, Inc.
