SAN JOSE, SAN JOSE, COSTA RICA, May 3, 2019 /EINPresswire.com/ -- Costa Rica has slowly and steadily built a reputation as a global destination for high quality dental care at affordable prices. Every day, patients from across the USA and Canada arrive at the Juan Santamaria International Airport in the capital city of San Jose to begin a different kind of vacation. While most tourists arrive to explore pristine national parks, go sport fishing, visit hot springs, gaze at active volcanoes or come face to face with Costa Rica's famous monkeys, sloths and toucans, another type of tourist is arriving to start a different kind of adventure, known as a dental vacation.

According to Costa Rica Dental Guide, approximately 15,000 dental tourism patients from the USA and Canada are expected to arrive in Costa Rica in 2019. "Our 2019 survey indicates that

more than 1250 international dental tourism patients, mostly from the United States, arrive each month for the express purpose of receiving dental care in Costa Rica," says James Madigan, CEO of CostaRicaDentalGuide.com, the leading online dental tourism guide in Costa Rica. "Most patients choose Costa Rica for complex dental care including full mouth restorations and the popular All on 4 dental implants procedure, which provides patients with a full set of teeth over two visits to Costa Rica."

“

Dental care in Costa Rica is equal if not superior to dental care found in the USA. Patients that travel to Costa Rica for dental care save from fifty to seventy percent on most dental procedures."

*James Madigan: Costa Rica Dental Guide*

Costa Rica competes with other nations like Mexico, Thailand, India and Hungary to attract dental patients seeking affordable dental care. "The sky-high prices of dental care in the USA are driving hundreds of thousands of patients to consider seeking dental care abroad. More and more Americans are opting to leave home and receive their dental care outside of the USA. "Costa Rica is now one of the top dental tourism destinations in the world." says Madigan. "Costa Rica is much closer to the USA than India,

Thailand or Hungary, and it's much safer than Mexico or other international dental destinations.

Patrick Goodness, owner of Goodness Dental, offered some comments on his team's accomplishments. "We have assembled a team of the best specialists in the nation. Each member of our specialist team is ranked as the best in their respective categories. When you attract and select talented and compassionate dentists and specialists, our patients receive the best care and feel truly welcome, safe and confident that they are in good hands," says Goodness. "In a nation filled with good dentists, being selected as the best dental clinic is an honor. We treasure our patients and want the best for them. We're always overwhelmed with pride when we read their comments and know that we have given them a beautiful new smile that will change their lives. I love to see the photos of our patients giving hugs to our doctors. It's the best part of my day."

"Many American patients think that they will sacrifice quality by choosing dental care outside of the USA. Sadly, many American dentists, fearful for their practices, warn patients to avoid traveling outside the United States for dental care," says James Madigan. "The simple truth is that dental care in Costa Rica is equal if not superior to dental care found in the USA." Patients that travel to Costa Rica for dental care can expect to save from fifty to seventy percent on most dental procedures. "The first step for American dental tourism patients is to give us a call and speak to one of our patient coordinators," says Goodness. "The second step is to get your passport and get ready to be treated like royalty by dentists that truly care."

Special tip for patients: Remember to bring your flip-flops and sunscreen. While affordable dental care is the reason for your visit, there's plenty of time to enjoy the warmth and sunshine that makes Costa Rica one of the top vacation destinations in the world. Costa Rica is one of the safest destinations for international travel. Tourists report low crime rates throughout the nation. Most dental tourism clinics provide patient transportation from the airport to the hotel and from the hotel to the clinic. US dollars and credit cards are widely accepted almost everywhere in Costa Rica.
