

# New SP100VC Variable-flow Pump

*Low-cost, Variable-flow Peristaltic Pump*

OMAHA, NE, USA, May 3, 2019  
/EINPresswire.com/ -- [Compact pump](#) provides variable-flow and exceptional life performance in a small attractive package. Enjoy the self-priming, run-dry, reversible, fluid-only-in-tubing benefits of a peristaltic pump in your fluid transfer or metering application. Flow rates are available up to 62 ml/min (0.98 gph) with a choice of motor speeds and tubing sizes. Select from a wide range of tubing materials for sterile operation, general purpose transfer or chemical handling. Splash-resistant housing mounts easily on the wall or on the bench. Manual and remote control options.

A long time producer and supplier of fluid handling pumps and systems, APT Instruments offers a wide range of small, compact solutions for fluid and air handling. In addition, application engineering assistance is provided to meet special product or custom design requirements. OEM and Distributor Programs.
