

# Holly Wells of Eye Love Nature and New Leaf Humanity to be Featured on CUTV News Radio

CHICAGO, ILLINOIS, UNITED STATES, May 8, 2019 /EINPresswire.com/ -- Holly Wells brings a lot of skills into play in her multiple businesses, starting with her special passion and energy. In the past weeks she has been speaking enthusiastically about her latest launch, New Leaf Humanity, which is an executive life coaching practice. It unites many of Holly's essential philosophies about tuning into your inner voice, aligning with your purpose, and discovering how to intentionally react and better navigate through all that stands in the way of achieving one's goals and increased success. In this second half of the series, she will review the meaning of the New Leaf Humanity name, as well as the various elements of her 10-week coaching and executive development program. Holly will also share tips on how to break out of psychological traps like cognitive dissonance, how to develop and synchronize your energy, and how to follow through on intention.

While Holly offers stimulating thoughts about quantum energy and respect for our environment, she also brings a solid history in the business world to her client engagements. Holly has worked for nearly 20 years in IT and corporate consulting and launched businesses of her own. New Leaf Humanity is young yet working out very well thus far and gaining favor with diverse clients who seek support for their goals—from students and homemakers to current business leaders.

Holly's coaching business is related to another that Holly runs, oriented to the idea that if we align ourselves with nature and other humans across the planet, anything is possible! That business is called Eye Love Nature and it guides people to take better care of their bodies and the environment--by practicing meditation and healthier habits each day, as well as recycling and making time to revel in nature's beauty. Holly lives with the guiding principle of Stewardship through R-E-S-P-E-C-T herself, in which R-E-S-P-E-C-T is a useful acronym to remember her seven recommended actions for sustainable living.

Holly is a brilliant advisor because she understands principles of business and psychology, and she has made bold changes in her own life and career. She feels healthier, energized and able to focus more on her achievements vs. outside distractions, by overcoming personal negative habits or self-limiting chatter. First focusing, then recognizing, and now sharing the tools and

processes she found to be successful through New Leaf Humanity, Holly is achieving more for herself and clients. She is offering one-on-one coaching guidance and a program that helps people erase patterns that stand in their way (such as the conflicting thoughts and actions of cognitive dissonance.) Clients perform exercises to reconnect with their passion, learn to embrace change, and intentionally create an outcome that is truly win-win (for themselves and the planet).

Holly's work makes such a positive difference! She delights in watching how people transform, and while moving themselves to a better place, shift the world around them. When you create change with compassion, she says, the impact ripples out. Good things happen around you and the entire circle of life is elevated. Learn more about how Holly helps people to be less stuck and become happier and successful.

CUTV News Radio continues its 8-week series with Holly Wells on Tuesdays, in interviews with Doug Llewellyn on May 1, Jim Masters on May 17 and 24, and then Doug again on June 7th.
