Wiseguyreports.Com Adds "Tequila -Market Demand, Growth, Opportunities and Analysis Of Top Key Player Forecast To 2025" To Its Research Database

Description :

Tequila is a regional specific name for a distilled beverage made from the blue agave plant, primarily in the area surrounding the city of Tequila, 65 km (40 mi) northwest of Guadalajara, and in the highlands (Los Altos) of the north western Mexican state of Jalisco. Although tequila is a kind of mezcal, modern tequila differs somewhat in the method of its production, in the use of only blue agave plants, as well as in its regional specificity. Tequila varieties are only allowed to use the term if they are manufactured in specific regions of Mexico.

Currently, Mexico is the only origin of tequila. Tequila is the most important type of wine in Mexico. Tequila is the symbol of Mexican national spirit, and Mexico is the second largest consumer countries of tequila.

The United States is the largest consumer of Tequila. In addition, the US demand for tequila is increasing year by year. Spain and Chinese demand for tequila is increasing at a high rate. Tequila has very strict requirements for raw materials. A mature blue agave requires a minimum of eight years, which limits the total production of tequila.

The global Tequila market is valued at 4660 million US\$ in 2018 and will reach 6360 million US\$ by the end of 2025, growing at a CAGR of 4.0% during 2019-2025. The objectives of this study are to define, segment, and project the size of the Tequila market based on company, product type,

end user and key regions.
