

Global Express Delivery | Market Synopsis & Forecast – 2025

WiseGuyReports.com Presents "Global Express Delivery Market Size, Status and Forecast 2019-2025" New Document to its Studies Database

PUNE, INDIA, May 10, 2019
/EINPresswire.com/ --

[Express delivery services](#) include delivery of parcels and documents to different customers, such as retail customers, business customers, and government agencies. The parcel and documents delivered using express delivery depend upon the weight of the parcel and the distance of the destination. Shipping charges include both, the distance of the destination and the weight of the parcel. Express delivery is a time-bound delivery, where the shipment is delivered on the same day or within 1-2 days. Express delivery service vendors provide services to deliver shipments only up to a certain distance. In addition, the vendors in this market provide value-added services for differentiating their services.

The B2B end-user segment accounted for the major shares of the express delivery market. The provision of services such as exchange of documents, business letters, and exchange of goods and the increased dependence of the pharmaceutical and healthcare industries, will contribute to the growth of this industry segment in the coming years.

In 2018, the global Express Delivery market size was xx million US\$ and it is expected to reach xx million US\$ by the end of 2025, with a CAGR of xx% during 2019-2025.
