PDFpen 11 Adds Split View, Font Bar, Continuity Camera Support, and More

Smile launches PDFpen and PDFpenPro 11 with split view, Font Bar, Continuity Camera support, and for Pro users, enhancements to form creation and editing

SAN FRANCISCO, CA, US, May 16, 2019 /EINPresswire.com/ -- Smile, the developer of productivity applications for Mac®, iPhone® and iPad®, launches PDFpen and PDFpenPro 11, a new major version of its all-purpose PDF editing tool for Mac. Version 11 introduces split view, a new Font Bar, Continuity Camera support, and for Pro users, enhancements to interactive form creation and editing.

Split view mode quickly and simultaneously shows different parts of a document. Partition your window horizontally or vertically, scroll to reference another page while editing.

The new Font Bar enables convenient font selection, styling, and justification for new and selected text.

Continuity Camera adds scanning options for users running macOS Mojave and iOS 12. Effortlessly scan documents and images into PDFpen and PDFpenPro 11 on your Mac right from your iPhone or iPad.

PDFpenPro 11 users can select and edit multiple form fields at once. Table of Contents text now wraps, simplifying navigation and editing.

PDFpen 11 includes many additional improvements, including the ability to add multiple items as one to the Library, specify margin positioning for page numbers, and turn position guides on and off.

"Customers' needs are our top priority, and we are delighted to deliver an even more robust and powerful feature set," said Philip Goward, Smile founder. "PDFpen's new features such as split view, the Font Bar, and Continuity Camera support, among many other improvements, follow through on that goal."

PDFpen and PDFpenPro 11 work with PDFpen for iPad & iPhone version 4, allowing seamless editing across devices when used with Dropbox or iCloud.

PDFpen retails for US $74.95, PDFpenPro for $124.95. Family Pack licenses, which cover up to five computers in one household, are $94.95 for PDFpen and $149.95 for PDFpenPro. Office Pack licenses start at $224.95 for PDFpen (5 users) and $349.95 for PDFpenPro (5 users).

Upgrades from earlier single-user versions of either application are US $30, and free for users who purchased on or after January 1, 2019. Upgrades from any previous version of PDFpen to PDFpenPro 11 are US $50. Upgrade pricing for Family Packs and Office Packs available in our web store: https://smle.us/store

PDFpen and PDFpenPro 11 require macOS 10.12 (Sierra) and later. For macOS 10.11 (El Capitan) and earlier, see our website for compatible PDFpen versions. Demo versions are available on our site. Full versions of PDFpen and PDFpenPro are also available for purchase on Apple's Mac App

Store. PDFpen is also available via subscription from Setapp.

What's New in PDFpen 11:

- Split-view mode for editing
- New Font Bar for expressive font control
- Import scans from Continuity Camera
- Customize page-number locations
- Add multiple items to the Library at once
- Adds option to turn off guides
- Adds Medical/Legal dictionaries for OCR (English language)

Features Specific to PDFpenPro:

- Export to Microsoft® Excel (.xlsx, .xls), Microsoft® PowerPoint (.pptx) and PDF Archive (PDF/A) formats (requires Internet connection for .pptx and PDF/A, must be a licensed user)
- Create cross-platform fillable PDF forms including interactive signature fields and email or web submission buttons
- Create and edit Table of Contents
- Convert websites into PDFs
- OCR multiple documents in batch
- Add and edit document permissions
- Automatic form creation makes existing PDF forms fillable
- Gather submitted form data via backend integration
- Add and delete file attachments and annotations
- Create Portfolio documents, combining related files
- Correct typos in OCR text layer
- OCR horizontal Chinese, Japanese & Korean

Features:

- Add text, images and signatures to PDFs
- Correct text in original PDF with editable text blocks
- Fill out interactive PDF forms and sign them
- Redact or erase text, including OCR text
- Search and replace, search and redact, and search and highlight text
- Export in Microsoft® Word format, TIFF, JPEG, PNG, and flat PDF
- Scan directly from Image Capture or TWAIN scanners
- Perform OCR (Optical Character Recognition) on scanned documents
- View OCR layer for proofing OCR text from scanned pages, or remove OCR layer
- Edit original images, including adjusting resolution, color depth and contrast, skew, and size of an image or scanned document
- Sign PDF forms via drawing, interactive signature fields, or AATL or self-signed certificates
- Insert and remove pages; reorder pages in a PDF with drag & drop; combine PDFs maintaining Table of Contents entries
- Move, resize, copy and delete images in original PDF
- Save PDFs directly to Evernote
- Preview and extract file attachments and annotations
