

# Registration Opens for the Inaugural HPAPI USA Conference

## *New HPAPI USA Conference Launch*

LONDON, UNITED KINGDOM, May 15, 2019 /EINPresswire.com/ -- SMi reports: Registration is now open for the HPAPI USA conference, taking place in Boston on the 21st-22nd October 2019.

The HPAPI global market is growing at an ever-increasing rate of CAGR at 8.6% that is projected to reach USD \$31.56 Billion by 2025, with a significant segment market of HPAPI being oncology ADC which is at a CARG of a staggering 20%. The continual elevation of HPAPI potencies along with toxicity will further drive the needs for more cutting-edge containment solutions and best practices guidelines to ensure workers safety.

With this in mind, SMi Group are pleased to present the inaugural HPAPI USA conference, taking place in Boston on the 21st-22nd October 2019.

The two-day event will explore how current technologies are streamlining the HPAPI industry with artificial intelligence and machine learning to improve risk assessment and validation, as well as the latest emerging therapies including bispecific antibodies, oncolytic viral complexes and hormones.

For those interested in attending, there is a \$400 early bird discount on bookings expiring on May 31st, 2019.

Key Highlights include:

Oncology Antibody-Drug Conjugates (ADC), the ongoing developments and the containment challenges imposed  
How to correctly assess, plan and implement the most cost-effective containment  
Emerging HPAPI therapies, oncolytic viruses their potential and challenges  
Alternative HPAPI manufacturing technologies to reduce powder exposure and improving safety along with enabling continuous manufacturing  
The reality of oncology ADC and HPAPI: are most drugs using 'highly-potent' to improve brand image? Has 50 years of ADC R&D for oncology with no cure shows signs of no promise?

SMi Presents the Inaugural Event

## **Highly Potent Active Pharmaceutical Ingredients BOSTON, USA**

**OCTOBER  
21-22, 2019**
