

Lerner and Rowe Renew \$25K Partnership with #LovePup's 'It's Hip to Chip' Program

Lerner and Rowe announce 2nd year \$25K partnership with 'It's Hip to Chip' program that helps reduce the number of homeless dogs in Maricopa County.

PHOENIX, ARIZ., UNITED STATES, May 15, 2019 /EINPresswire.com/ -- The law offices of Lerner and Rowe are keen to announce the [renewal of their \\$25K annual partnership](#) with the #LovePup Foundation's 'It's Hip to Chip' program. 'It's Hip to Chip' was created by #LovePup to help reduce the number of adopted dogs becoming lost and homeless in Maricopa County. The pilot program had a successful first 12 months and celebrated it's one-year anniversary on Saturday, May 11, 2019 at the Maricopa County Animal Care & Control West shelter (2500 S. 27th Avenue, Phoenix, AZ 85009).

“

Due to the It's Hip to Chip program, many dogs have been successfully reunited with their furever families. We are thrilled to once again partner with the amazing community initiative.”
Kevin Rowe, ESQ.

As part of the celebration, Lerner and Rowe gave away dog-friendly frisbees and bandanas, as well as poop-bag dispensers. Other community partners in attendance included AZ Pet Vet that offered free microchipping and Safeway/Albertsons that handed out dog food and treats. Food trucks were also present with offerings for pet parents and other guests.

“We are thrilled to once again partner with the It's Hip to Chip program,” exclaimed attorney Kevin Rowe. “Due to the LovePup Foundation's microchipping initiative, many dogs have been successfully reunited with their furever families.”

The program has also helped reduce the number of potentially harmful situations which may result from a lost and scared pet roaming the streets.”

-Why It's Hip to Chip-

The It's Hip to Chip Program aims to ensure that all dogs adopted from either of the Maricopa County Animal Care and Control Animal Shelters receive a microchip upon their adoption. Microchips make it easier for owners to find their lost pets by storing the owner's contact information in a database. And, since the microchip is implanted under the dog's skin, there's no need to worry about losing the device like a collar or tag.
