Drivers vs. Constraints

The increase in the growth of Global Solar Freezer Market is due increasing awareness among people on the reduction of carbon emissions. For the power generation for a conventional freezer, fossil fuels are burnt in large quantities which lead to global warming .This also paves a way for solar freezer market growth. But the cost of conventional freezer is very much cheap compared to a solar freezer.

Industry Structure and Update

UNICEF and its other partners are planning to support the increase in the production and access to cold chain technologies to meet increased cold chain requirements. For example many freezers are required for storage vaccination and drugs in the medical field so many vendors such as CONNEXA Energy, Dulas and Engel Coolers are mainly concentrating on medicinal applications of solar freezers.

Every year there are about 2 million shipments of freezers are transported across the USA.

We also can offer customized report to fulfill special requirements of our clients. Regional and Countries report can be provided as well.
