

Advanced Ground-Breaking AI Neural Network Stocks and Securities Precision Forecasting Now A Reality

Clients Making Millions In Profit Each Week With World Class Financial Stock Market Prediction Platform

NEW YORK, NEW YORK, UNITED STATES, May 17, 2019 /EINPresswire.com/ -- Treadwell Stanton DuPont draws upon its over 10 years of experience to serve private, institutional and corporate clients worldwide. Its business strategy is centered on its pioneering and revolutionary 4D Vectorial Hypercube NEBULA6 Synaptic Synthesis Engine process, which enabled us to correctly predicted the [BRK-B] Berkshire Hathaway Inc. stock plunge two weeks ago, making Treadwell Stanton DuPont clients who acquired our [BRK-B] chart last week anywhere from \$1.3m to \$2.1m profit each in one week.

We also correctly predicted the [AMAT] Applied Materials, Inc. stock plunge two weeks ago, also making clients who acquired our [AMAT] chart last week anywhere from \$245k to \$730k profit each in one week. The list goes on and on.

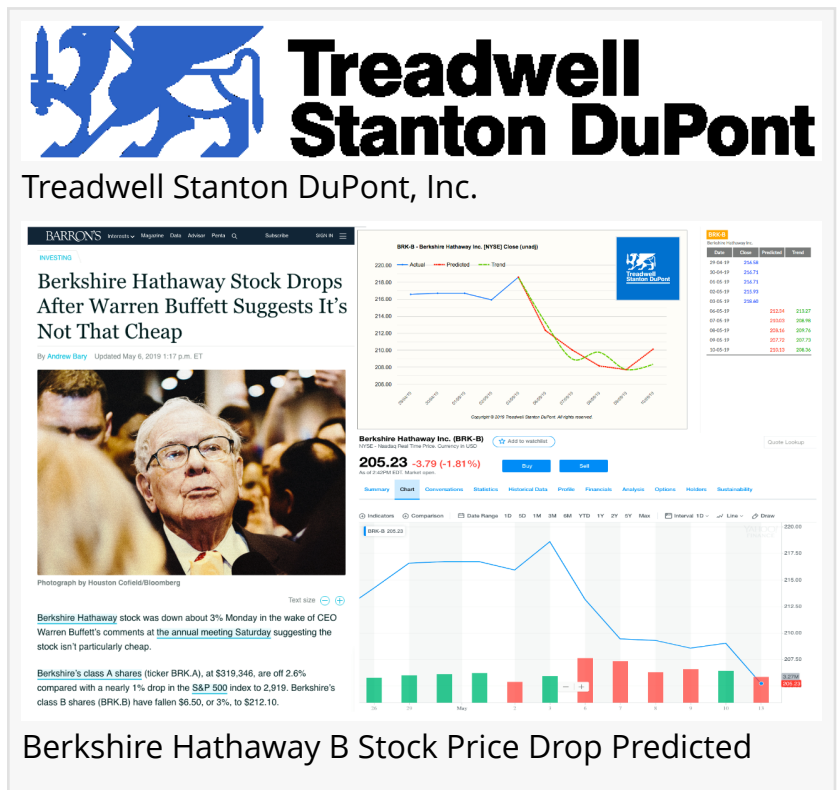

“

Bringing the future one step closer.”

Treadwell Stanton DuPont

by Treadwell Stanton DuPont over a 10 year period, makes possible weekly stock predictions with an exacting, unprecedented level of precision. And while it's impossible to be correct spot-on 100% of the time, remember the age old business adage: you don't need to be right all the time, you just need to be better than the rest.

The result? The best financial decision making tools money can buy, anywhere in the world. Period. Treadwell Stanton DuPont is the absolute authority in the financial forecast sector; our charts are the undisputed reigning champions, bar none. Today, Treadwell Stanton DuPont is the first ever and only fintech company to bring viable securities and stock forecasting to a select group of clients worldwide. That's why financial advisors, stock brokers, fund managers and

Berkshire Hathaway stock was down about 3% Monday in the wake of CEO Warren Buffett's comments at the annual meeting Saturday suggesting the stock isn't particularly cheap.

Berkshire's class A shares (ticker BRK-A), at \$319,346, are off 2.6% compared with a nearly 1% drop in the S&P 500 index to 2,919. Berkshire's class B shares (BRK-B) have fallen \$6.50, or 3%, to \$212.10.

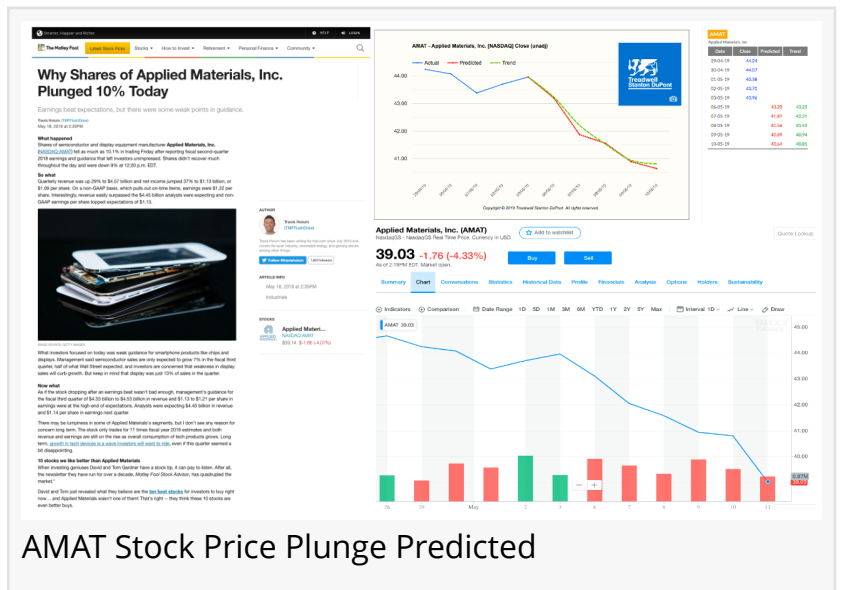

Berkshire Hathaway B Stock Price Drop Predicted

Where everyone else has tried and failed, Treadwell Stanton DuPont has succeeded.

This quantum leap technology, called the 4D Vectorial Hypercube NEBULA4 and NEBULA2 (NeuroEvolution Based Unified Layer Architecture) Synaptic Synthesis Engines (together called the NEBULA6 SSE), developed exclusively

wealthy investors around the globe trust us to provide them the necessary tools and data when unrivaled, ultimate ROI performance is of the essence.

With large investment banks secretly spending millions of dollars on closely guarded stock market neural network algorithms, this technology is all but unreachable to the masses. Not anymore. Treadwell Stanton DuPont, with a new, ground-breaking and revolutionary process, now brings to the general public technology and stock market performance which has, until now, been dominated by some of the biggest and most established financial players, in particular, JP Morgan, Goldman Sachs, Merrill Lynch, Morgan Stanley, and Citigroup.

AMAT Stock Price Plunge Predicted

This all means Treadwell Stanton DuPont has the capacity, the means and the technology to accurately predict US and Foreign Stocks, Mutual Funds and ETFs with a degree of certainty previously unheard of.

We also provide an API that enables integration with other financial platforms.
