

Matilda Cloud Solutions: Inspiring change and driving transformation with the cloud

Matilda Cloud Solutions fuels Digital Transformation in all organisations that are increasingly aiming for innovation around their business and operating models

RICHARDSON, TEXAS, USA, May 19, 2019 /EINPresswire.com/ -- [Matilda Cloud Solutions](#), a global pioneer in empowering businesses to reduce cloud migration time and expense, has been inspiring change and driving transformation with its cloud solutions. With agility and innovation today becoming the mantra for business success, Matilda Cloud Solutions fuels digital transformation in all organizations that are increasingly aiming for innovation around their business and operating models.

Matilda Cloud Solutions simplifies the [migration of applications](#) to a public or private cloud, monitors and controls the environment for ongoing IT operations. It effectively institutionalizes these innovations and helps enterprises to harness the cloud strategy to execute multiple iterations quickly while ensuring cost-effective operations and data flexibility. It further accelerates service delivery to launch new products, managing hybrid, and multi-cloud environments. Other services from the comprehensive suite of Matilda Cloud Solutions include Infrastructure and Service discovery, Automation, Multi-Cloud Management, Cloud Migration, Container Management Platform, Dynamic workflow for DevOps Automation, Cost Optimization etc.,

Mr. Suresh Cheruku, President & CEO, Matilda Cloud Solutions said, "Matilda Cloud Solutions is committed to delivering a framework that allows application migrations to happen in hours vs. days. We provide a repeatable deployment process for applications that support DevOps initiatives. Our product can mitigate risk through the control of software and security vulnerabilities that come with hosting applications in a public cloud."

Several organizations remain cautious about cloud computing, owing to concerns around data safety and compliance. Matilda Cloud Solutions offers hassle-free migration of data allowing them to retain some of the data on-premise while employing the cloud to store the rest of the data. As a result, firms can leverage the benefits offered by the cloud's agility, whilst having better control of their information. It also supports the digital transformation to container models, provides ongoing container management features and an enterprise-grade end-to-end [cloud management solution](#).

About Matilda Cloud Solutions:

Matilda Cloud Solutions is an enterprise SaaS platform offering to help customers modernize

and efficiently manage their application environment. Our core modules include environment discovery, cloud management, DevOps orchestration, and ongoing cost management delivering quality technology solutions to customers across varied industry domains. Businesses can easily migrate applications to the cloud using either virtual machines or containers, optimize ongoing cloud costs with intelligent scaling, and minimize business risk from security exposures.
