PUNE, MAHARASHTRA, INDIA, May 20, 2019 /EINPresswire.com/ -- Fitness & Health Clubs Market:

Executive Summary

Global fitness & health clubs market to reach USD 105 billion by 2025.

Global fitness & health clubs market is valued approximately at USD 85.20 billion in 2017 and is anticipated to grow with a healthy growth rate of more than 2.7 % over the forecast period 2018-2025. Rising awareness among people to avail healthy lifestyle, increasing number of lifestyle-oriented diseases and rising incidences of obesity are the primary driving factors for the global fitness industry. With increasing healthcare costs and increasing health consciousness people across the global are encouraged to follow healthy and active living. Out of various ways of staying health and fit, joining fitness club is becoming the most preferable option.

Modernization, rising disposable income in developing countries, rising number of fitness clubs and gyms, have propelled the growth of the market significantly. Furthermore, social media influence is another major factor feeding growth in global fitness industry. Social media basically plays the role of influential marketing for the industry. Furthermore, the number of health clubs and memberships are also increasing at significant growth rates. However, increasing demand for home fitness equipment over the forecast period may serve as a restraint market.
