PUNE , MAHARASHTRA, INDIA, May 20, 2019 /EINPresswire.com/ -- Report Description:  
An [optical ground wire](#), also known as OPGW, is a type of cable that is used in overhead power lines. Such cable combines the functions of grounding and communications. An OPGW cable contains a tubular structure with one or more optical fibers in it, surrounded by layers of steel and aluminum wire. The global OPGW cable market will reach 741.67 million USD by 2025 from 528.5 million USD in 2018 at a CAGR of 4.96% during the period.

## Growth by Region

Asia Pacific will grow at high rate owing to growing demand for electricity and broadband in emerging economies like China and India. South America will also grow at significant rate due to increasing demand for internet and increased electricity generation.
