

# Registration is now open for the inaugural Wearable Injectors and Connected Devices Conference 2019

*SMi Reports: Registration is open for SMi Group's inaugural Wearable Injectors and Connected Devices Conference taking place in October.*

LONDON, UNITED KINGDOM, May 21, 2019 /EINPresswire.com/ -- SMi are proud to present the inaugural [Wearable Injectors](#) and [Connected Devices](#) Conference, taking place on 9th – 10th October 2019 in London. The conference will explore new technologies and advances of on-body devices for the administration of viscous and large molecule drug delivery, and evaluate the impact of IoT, connectivity and enhancements of user-interface which make up core components within the wearable devices field.

SMi proudly presents the launch of...  
**Wearable Injectors & Connected Devices**  
9TH- 10TH OCTOBER 2019 | LONDON, UK  
[www.wearable-injectors.co.uk](http://www.wearable-injectors.co.uk)  
Wearable Injectors

Conference highlights include:

- Listen to case studies from leading pharmaceutical companies revolutionizing the medical device industry
- Hear how on-body injectors are facilitating the administration of time-dependent, large volume and viscous drug delivery
- Assess how connectivity is being used to improve patient adherence, health-monitoring and enhancing the user-interface
- Explore the compatibility, pain and patient handling considerations projecting wearable devices as the future of drug delivery

You can view the two-day agenda and speaker programme on the event website: [www.wearable-injectors.co.uk/einpr1](http://www.wearable-injectors.co.uk/einpr1)

Registration is live on the website and a saving of £400 is available for bookings made before 31st May 2019. Registrations can be made on the event website.

Who should attend:

Executives, Directors, VPs, Heads, Principals or Managers of:

- Drug-delivery developers
- Autoinjectors
- Device Engineering
- Human Factors
- Injectables

- Regulatory Affairs
- Connectivity
- Medical Device Data
- Novel Product Technology
- Smart device developers
- Training device developers
- Device-safety solution providers

PLUS, two half-day interactive workshops:

Cross company collaboration to develop digital therapeutic solutions using connected devices  
Workshop Leader: Digby Harris, Global Category Manager – Digital Therapeutics & Devices, AstraZeneca

Wearable injectors: Envisioning their evolution to address current and future unmet needs

Workshop Leader: James Blakemore, Senior Consultant, Cambridge Consultants

Workshop Leader: Sergio Marlorni, Senior Consultant, Cambridge Consultants

Wearable Injectors and Connected Devices

9th – 10th October 2019

London, UK
