China and North America are the major production bases of solder. The two regions contributed about 72% share in the global production market in 2017. In addition, China keeps its No 1 position in the recent years, of which production reached to 131 K MT in 2017. The industry is relatively scattered. Kester, Henkel, AIM, KOKI, Alpha Assembly Solutions and so on are the leading producers in the solder market.

As for consumption, Asia-Pacific and North America are the major consumers as well. The two regions consumed about 165 K MT and 18 K MT respectively, with a total share of 87% in the consumption market in 2017.

Although China has become the largest producer of solder, when considering the performance, the manufacturers in the country still have an obvious gap compared with those from European and American regions. Chinese solder manufacturers should be dedicated to performance improvement.
