

FinderVenue.com brings Blockchain & Crypto Event Organisers Platform

Looking for the perfect event space for that crypto meeting, training or blockchain conference? Access our buying power, we monitor rates daily.

LONDON, EXCEL, UNITED KINGDOM, May 28, 2019 /EINPresswire.com/ -- [BLOCKOTEL](#) by Findervenue.com [Hire Space](#) London professionals Jigsaw Conferences Ltd is decentralized B2B Blockchain application where a business or corporate entities can book for meetings and events and offer a '[free venue finding service](#)' Finding venues for free for corporate events, conferences and meeting rooms in the UK and abroad in the business atmosphere.

Blockotel's business blockchain model is B2B for the meetings and events sector and offers a 'free venue finding service' Finding venues for free for corporate events, conferences and meetings in the UK and abroad in the corporate space. This involves booking venue space for two delegates to thousands including corporate housing 'Accommodation' on a daily basis these booking can vary in size from large conferences, to mini-events such as lunches and dinners.

With this in mind, we will provide transparency on attendance records and deliver value to its users, who are required to keep a track of this information in order to remain compliant for business and organizations on a mutual distrusted ledger called the 'Blockchain'. As companies are facing increasingly complex obligations from a regulatory and compliance perspective globally. For example, Pharmaceutical companies, with this in mind, we offer a suite of services from the Healthcare industry to financial institutions providing full visibility of meetings and event attendees and associated spending.

The aim for Blockotel is to launch an umbrella brand UK arm blockchain start-up and global tracking system which will use tokenization (Tokenization, when applied to data security is the process of substituting a sensitive data element with a non-sensitive equivalent referred to as a token, that has no extrinsic or exploitable meaning or value).

The blockchain token will be a great chance to mix blockchain and other emerging technologies to secure and optimize the procurement supply chain. We have the knowledge and experience in our current legacy systems which enable us to use the blockchain supply chain and tracking with the goal of creating an immutable ledger that can track and secure meetings and events spend using meta-data and AI.

We have previously received widespread support from major associations and c-level professionals who have been interested in helping eliminate counterfeit or nonlegitimate meetings, event and accommodation bookings that result in overspend or disregard for regulations and company policies. Our partnerships with key stakeholders in the events and accommodation arena enable us to open great doors to for existing and new clients.

We will offer rewards for trust, consistency, and transparency using the blockchain, Blockotel.com will offer an umbrella service using the blockchain and tokenization to support procurement as well as allowing government, regulators and

the public effective processes and methods for 4th generation supply chain in our safe, secure and encrypted immutable system.
