Best Value, Leading-Edge Technology for Education Backed by Great Support Offered by ITsavvy

ITsavvy is focused on helping school administrators and teachers achieve their educational goals with best fit tech for the 2019-2020 school year and beyond.

ADDISON, ILL., U.S., May 29, 2019 /EINPresswire.com/ -- ITsavvy, a leading U.S. education technology provider, is laser focused on helping school administrators and teachers achieve their educational goals for the 2019-2020 school year and beyond, through best fit technology that is leading-edge, durable, cost-competitive and backed by the company's legendary support.

This technology is provided through ITsavvy's portfolio of top education technology manufacturers that focus on the needs of students and educators.

ITsavvy President and CEO Mike Theriault said, "We know that we are not the only company providing this technology to schools, so we work hard to earn the trust and loyalty of school administrators and educators. Based on our strong partnerships with over 1000 manufacturers we are able to insure that educators are able to successfully use the technology to its fullest potential. We don't just sell to schools, we partner with them toward the success of each student."

ITsavvy has been serving the education community for 15 years. Services that ITsavvy offers to schools include integration, installation, education, support and maintenance. Each client has a dedicated client executive who is responsible for all aspects and all resources that ITsavvy has to offer. In addition to hardware and software, ITsavvy solutions that are an excellent fit for schools include:

ITsavvy President and CEO Mike Theriault

•SavvyGuard: A managed services help desk that answers support calls with U.S.-based certified technicians who can be available 24x7x365. ITsavvy guides callers to successful problem resolution, with on-call specialists that can be brought in for more challenging issues.

•SavvyCloud: Infrastructure and computing capabilities are hosted in the cloud at an offsite data center. This solution protects data and operations while improving cost management and productivity.
