PUNE, INDIA, May 30, 2019

/EINPresswire.com/ --

An increasing use of technology in the teaching process encourages educational institutions to collect and track grades, attendance details, scores, and demographics to help students improve their learning process. At present, there is a noted

improvement in the type of knowledge gained by students through the mobile and cloud technology, and Big Data analytics. The entire process of imparting education has become more systematic.

E-learning is utilized by public K-12 schools in the United States as well as private schools. Some e-learning environments take place in a traditional classroom, others allow students to attend classes from home or other locations. There are several states that are utilizing virtual school platforms for e-learning across the country that continue to increase. Virtual school enables students to log into synchronous learning or asynchronous learning courses anywhere there is an internet connection.
