

Senior UK Military to share Key Briefings on Airborne ISR at 5th Annual Conference

SMi reports: Three key UK speakers to give valuable perspectives at the Airborne ISR Conference, taking place in London this October

LONDON, UNITED KINGDOM, May 30, 2019 /EINPresswire.com/ -- With the RAF remaining at the forefront of delivering airborne intelligence for UK operations, SMi Group are pleased to announce that the agenda for the [Airborne ISR conference](#) taking place on the 23rd-24th October 2019, includes three key UK senior military speakers set to deliver insightful presentations, thoroughly covering the intelligence chain:

Wing Commander Keith Dear, SO1 Lessons, Joint Forces Command, will present on 'Examining the Future of ISR Information Dissemination to Reduce Analyst Workload'.

Wing Commander Mark Jackson, Officer Commanding No. XIII Squadron, RAF, will present on 'Preparing for Protector: Challenges of Developing for Ops, whilst simultaneously Delivering on Ops'.

Commander Colin McGannity, Programme Manager Military Capability, UK MoD, will present on 'Integrating the Merlin Airborne Surveillance and Control System for Superior Naval ISR'.

In addition to the UK, this year's conference will host an [international gathering of high-ranking experts](#) from NATO, US, Germany, Canada, Australia, Portugal, The Netherlands, TNO and more.

The newly released brochure with the two-day agenda and full speaker line-up is available to download online <http://www.airborne-isr.net/einpr>

In anticipation of the event, a comprehensive list of past delegates has been released and is [available to download from the website](#), giving prospective delegates an idea of the international organisations they can expect to meet and network with at this year's event.
