Global Natural Flavours Market – Market Dynamics

Growth in the end user industries mainly food & beverage sector is one of the major factors that is driving the global natural flavors market. Owing to adverse health issues due to the consumption of artificial ingredients particularly in processed food products, whose use is increasing rapidly along with demand for clean label products. Shifting preferences among consumers towards naturally-derived food products has resulted in the demand for natural ingredients, which is anticipated to fuel the overall natural flavors market growth. Thus, natural food flavors are expected to outpace the market share of artificial food flavors in the near future.

However, high costs associated with natural flavor raw materials is restraining the adoption of natural flavors. Seasonal availability of natural sources which is crucial factor for the extraction of natural flavors is also one of the limiting the market growth.
