

# Registration is Live for the Inaugural Respiratory Drug Delivery Conference 2019

*SMI Reports: Registration is now open for the Inaugural Respiratory Drug Delivery conference taking place in London on 13th-14th November 2019.*

LONDON, UNITED KINGDOM, June 3, 2019 /EINPresswire.com/ -- SMI are pleased to announce that registration is now live for the inaugural [Respiratory Drug Delivery](#) conference, part of the newly branded [Asthma](#) and COPD series, which will be held in London on 13th - 14th November 2019.

Opportunities for drug development has effectively resulted in the global pulmonary and respiratory drug delivery market expecting to reach 64 billion USD (6.7% CAGR) by 2025. However, the unmet medical needs of respiratory disease sufferers remain.

SMi aim to bring together clinical researchers, respiratory drug manufacturers and solution providers to discuss the current research and developments in providing appropriate long-term treatments that adhere to patient's needs, analysing the success of digital media devices and connective health technology in aiding the diagnosis of severe asthma and COPD. This year will also investigate the developing issues surrounding pulmonary and nasal combination product design.

Featured highlights for this year's conference include:

1. Assessing how to transform disease management through drug combinations, devices and inhaled biologic treatments
2. Evaluating respiratory device design development and novel technologies such as nanoparticle-based drug delivery
3. Exploring digital connective inhalation to improve patient centricity
4. Reviewing the challenges around the pricing and reimbursement of respiratory drug products
