

Virtual/Online Fitness 2019 Global Market Size, Market Share, Status and Forecast to 2025

WiseGuyReports.com Presents "Global Virtual/Online Fitness Market Size, Status and Forecast 2019-2025" New Document to its Studies Database

PUNE, INDIA, June 4, 2019
/EINPresswire.com/ --

Virtual fitness is an ongoing trend of delivering physical training sessions in groups through online channels. These training sessions are beneficial for people who face difficulty in physically attending classes. These sessions are conducted at a pre-decided schedule or time slot.

The global virtual fitness market is driven by the need for advanced fitness sessions, inclination towards physical fitness, increased stress environment, unavailability of time to attend sessions at institutes, sedentary lifestyle, and others. However, low awareness about the services and courses offered by the players in the industry hamper the market growth. Furthermore, growing popularity of the concept of virtual fitness in developing economies presents lucrative opportunities to market players in the near future.

In 2018, the global Virtual/Online Fitness market size was xx million US\$ and it is expected to reach xx million US\$ by the end of 2025, with a CAGR of xx% during 2019-2025.
