ZOOMAWAY REVEALS 'SNEAK PEEK' INTO REVOLUTIONARY NEW SUPER APP

NEWS RELEASE TSXV: ZMA

VANCOUVER, BC – June 10, 2019 – ZoomAway Travel Inc. (TSXV: ZMA) (the "Company") www.zoomaway.com, a leader in the hospitality technology sector, is pleased to announce that it has completed production on the second phase of its flagship product, ZoomedOUT, and wanted to give shareholders a sneak peek of the product at this current stage of development.

In the second milestone, the company and its production partner, Zero 8 Studio's successfully built the initial wireframe of the software coupled with the framework of existing mapping technology. They started the foundation for the user interface, added travel utility features, established all the various 3D map style points, and created internal builds for review and testing. Thus demonstrating just a few of the revenue streams that will be available on the platform upon completion. ZoomedOUT plans to become a true super app where it combines the key features of products like Tripadvisor, Google Maps and Gamification methods all under one roof. In-turn we will increase mobile user engagement, diversify revenue streams, and connect user experiences anywhere in the world.

The Company expects the next milestone to be underway very soon. The third milestone calls for finalizing the product wireframe, adding numerous 3D properties to the Las Vegas strip, finishing the development of the UI/UX, and development of a larger scale section of the city with various game and more utility features. The newly completed features of the platform will now demonstrate ZoomedOUT's overall look and feel as well as how it expects key aspects of the technology to interact with one another in a living 3D space with actual properties.
