

# Alaska US Navy Veterans Mesothelioma Advocate Now Urges a US Navy Veteran with Mesothelioma in Alaska to Call Them for Direct Access to Attorney Erik Karst of Karst von Oiste for Much Better Compensation Results

ANCHORAGE, ALASKA, USA, June 10, 2019 /EINPresswire.com/ -- The Alaska US Navy Veterans Mesothelioma Advocate says, "We are passionate advocates for Navy Veterans with mesothelioma in Alaska and we want to make certain a person like this receives the best possible financial compensation results. To get the financial compensation job done for a Navy Veteran we suggest the law firm of Karst von Oiste and their founding partner Erik Karst as we would like to discuss anytime at 800-714-0303.

"The reason we have endorsed the law firm of Karst von Oiste and Erik Karst for a Navy Veteran in Alaska or any other US State is these amazing lawyers know what they are doing for Navy Veterans with mesothelioma and unlike most other law firm's they handle the claims process internally--which means a much simpler compensation process for the Navy Veteran for their family--as we would like to explain anytime at 800-714-0303." <https://Alaska.USNavyMesothelioma.Com>

“

"Call us anytime at 800-714-0303 so that we might have the opportunity to introduce them to attorney Erik Karst and his remarkable colleagues at Karst von Oiste."

If the Alaska US Navy Veterans Mesothelioma Advocate had two vital compensation tips for a US Navy Veteran with mesothelioma they would be: "Try to recall the specifics of how you were exposed to asbestos on a navy ship, submarine, navy base or shipyard and do you recall the names of shipmates who may have witnessed your exposure to asbestos? We are also urging a person like this

or their family to call us anytime at 800-714-0303 so that we might have the opportunity to introduce them to attorney Erik Karst and his remarkable colleagues at Karst von Oiste." [www.karstvonoiste.com/](http://www.karstvonoiste.com/)

The Alaska US Navy Veterans Mesothelioma Advocate's free services are available to a Veteran with mesothelioma anywhere in the State of Alaska including Anchorage, Fairbanks, Juneau, Sitka, Ketchikan, Eagle River, Homer, Palmer or Nome.

Every US Navy ship vessel built up to 1980 contained asbestos. Extreme exposure to asbestos may have occurred to US Navy Veterans if they were assigned to a navy ship's engine room, as a machinists mate, electrician, plumber/pipefitter, mechanic, in engineering, as a repair crew member, as a crew member on a nuclear submarine or as a member of the Navy Seabees. Additionally, a US Navy Veteran could have received extreme exposure to asbestos if they were required to stay on their ship or submarine for a major repair, overhaul or retrofit at a shipyard. Asbestos exposure was so extreme on US Navy ships and submarines, about one third of all US citizens diagnosed with mesothelioma each year are Veterans of the US Navy.
