Contract Research Organizations Market By Service Type, By Therapeutic (Oncology, Infectious Diseases, Cardiovascular Diseases, Metabolic Disease And Others) And By Regions - Global Forecast To 2021"
Abdul Wasay

Contract Research Organizations (CROs) offer end-to-end solutions in conducting clinical trials for pharmaceutical, biotechnology and medical device companies, collectively referred to as sponsors. The core services offered by CROs to biopharmaceutical companies include initial drug discovery solutions, toxicology studies, bio-analytical services, central laboratory, site monitoring, data management services, vigilance, bio-statistics, study and development program design and consulting, regulatory

affairs and a variety of post-marketing surveillance services.

Growth in the contract research organizations market in the historic period resulted from the rising cost of drug development, increasing patent expirations of drugs and growing contract research organizations market. Factors that negatively affected growth in the historic period were clinical trial failures and stringent and differing government regulations.

Going forward, growing demand for outsourcing services in emerging countries and expanding scope of CRO solutions through technology will drive growth. Factors that could hinder the growth of this market in the future include data safety concerns and CRO scandals will affect market growth.
