

Big Additions to the McMillan-McGee Corp. Executive Team

McMillan-McGee, In-Situ Thermal Remediation specialists, owners of the patented ET-DSP™ and IT-DSP™ technologies announces 3 additions to their Management Team

CALGARY, ALBERTA, CANADA, July 12, 2019 /EINPresswire.com/ -- McMillan-McGee welcomes Kristof Van Vooren to the team as the new CFO. [Mr. Van Vooren's](#) extensive knowledge in the environmental industry began in 1993 in the water research department of his family business, Laboratories E. Van Vooren. Since then he has fully acquired the firm and has started multiple other highly successful environmental, remediation and management companies. Kristof holds a Bachelor's degree in Business Administration as well as his MBA in International Business. With his wide range of knowledge of global affairs, no one knows business quite like Kristof.

McMillan-McGee also announces the internal promotion of Mr. [Clayton Campbell](#) to Vice President of Engineering. Mr. Campbell has been with McMillan-McGee since 2012 and in that period, he has demonstrated both a passion for technical excellence and the acumen for executing complicated projects. Clayton is a graduate from Dalhousie University with a D. Eng. and B. Eng. in Chemical Engineering. He has experience in project engineering and management while with AMEC and has worked as a team leader in multidiscipline design projects in the oil and gas industry.

Kristof Van Vooren, CFO

They are also proud to announce the promotion of Mr. [David Rountree](#) to President of Mc² USA. David Rountree simultaneously serves as Chief Engineer of McMillan-McGee Corp. Canada. Mr. Rountree has been remediating petroleum and hazardous waste sites since 1995, and has made in-situ thermal remediation a specialty since his first thermal project in 2001. He enjoys the unique challenges that every thermal project brings, and applies his experience and training to craft optimal solutions for each client. He graduated with a Bachelor of Science in Physics and a Master of Science in Environmental Engineering, both from the Georgia Institute of Technology.

“

These promotions are a statement of our commitment to deliver excellence. Our culture of doing the math and a disciplined and professional approach, are well served by our highly qualified executives.”

*Dr. Bruce McGee,
President/CEO*
