

# BioOptimal Celebrate Winning Over 1000 Positive Reviews for Grass Fed Non-GMO Collagen Powder on Amazon.com

SILVERDALE, WA, UNITED STATES, June 13, 2019 /EINPresswire.com/ -- Experts agree that [collagen powder](#) can deliver a number of vital health benefits, difficult to find elsewhere. The key is, however, finding a source that can deliver it in high-quality form and not a cheaply made, less-effective knockoff. Leading the way in this area is organic superfoods company [BioOptimal](#). In exciting news, BioOptimal recently announced they have crossed the 1000 review milestone on [Amazon.com](#) for their premium Collagen Powder, which like the rest of their line, is all-natural. It is also grass fed and pasture raised, two factors that affect both its potency and taste.

"We are very excited to see how our products have risen in popularity, especially our collagen powder," commented a spokesperson from BioOptimal. "It is a remarkable supplement that delivers very noticeable results for many users. We believe that our supplements and all supplements should be free of artificial ingredients to support the nourishment and health of the body."

Collagen powder is most often taken to help develop healthier and more vibrant hair, skin, and nails, it has a neutral taste and the powder can be taken in water, milk or however else its user chooses to take the supplement.

Each tub contains either 30 or 45 servings depending on what size is ordered.

BioOptimal offers a money-back guarantee.

The feedback continues to be positive across the board.

Christine S., from New York, recently said in a five-star review, "My hair has never looked better since taking BioOptimal Collagen Powder. I highly recommend it, especially for the price."
