

Invisible Tech Launches Highly Successful Crowdfunding Campaign for ROBOQI H2 Bluetooth Speaker

The speaker is revolutionizing the way we listen to music.

SAN JOSE, CA, USA, June 20, 2019 /EINPresswire.com/ -- Invisible Tech is pleased to announce it has launched a highly successful crowdfunding campaign on Indiegogo for their latest technology – the [ROBOQI H2 Bluetooth Speaker](#).

The ROBOQI H2 Bluetooth Speaker is a wireless charging Bluetooth speaker with 12 incredible built-in features that make it one of the most functional hi-fi speakers on the market.

“When we developed ROBOQI H2, it was imperative we designed a speaker like no other,” says Dr. Tony, one of Invisible Tech’s developers. “To ensure we surpassed our competition, we wanted to build a Bluetooth speaker with as many functional features as possible. We think we’ve done just that.”

The ROBOQI H2 Bluetooth Speaker

ROBOQI H2 Bluetooth Speaker includes a wide variety of highly beneficial features to meet the needs of all users. These features include:

- Two high quality tweeters to deliver deep bass and powerful sound
- Touch-sensitive control for ease of use
- Wireless charging for cellular phones
- DIY personalized alarm with multiple settings
- FM radio in case of power and/or data outages
- Long-lasting, built-in battery with 12 hours of play time and 72 hours of standby time
- Adjustable HD clock screen
- Multiple inputs to support BT, AUX, and TF card
- Four types of charging adapters (EU, US/CA, AU/CN, UK/HK/SG)
- Hands-free calling capabilities
- Stylish design with mirrored front face
- 24/7 hours mode
