The Delaware US Navy Veterans Mesothelioma Advocate is offering the following suggestions for a Navy Veteran with mesothelioma in Delaware or nationwide-with the goal being better compensation results:

\* "What was the duty assignment for a Navy Veteran with mesothelioma? As an example, were you assigned to an

engine room, machine shop, as a maintenance crew member or an electrician? The more information you have about where on a ship or submarine you were exposed to asbestos the better.

\* "Do you recall the names of shipmates who witnessed your exposure to asbestos?"

\* "Before a Navy Veteran with mesothelioma or their family hires an attorney to assist with a mesothelioma compensation claim please call us at 800-714-0303 so that we can provide you with on the spot access to attorney Erik Karst and his remarkable colleagues at the law firm of Karst von Oiste." \* The VA-For a state by state listing of VA Medical Centers nationwide please visit their website: <https://www.va.gov/directory/guide/FindLocations.cfm>.

Every US Navy ship vessel built up to 1980 contained asbestos. Extreme exposure to asbestos may have occurred to US Navy Veterans if they were assigned to a navy ship's engine room, as a machinists mate, electrician, plumber/pipefitter, mechanic, in engineering, as a repair crew member, as a crew member on a nuclear submarine or as a member of the Navy Seabees. Additionally, a US Navy Veteran could have received extreme exposure to asbestos if they were required to stay on their ship or submarine for a major repair, overhaul or retrofit at a shipyard. Asbestos exposure was so extreme on US Navy ships and submarines, about one third of all US citizens diagnosed with mesothelioma each year are Veterans of the US Navy.
