When a person visits the practice, they'll meet with a clinician who can talk with them about their needs and goals, then recommend some treatment options that are right for them. The clinicians are highly-trained, attentive, friendly, and patient-centered; their job is to help patient's feel at ease, and to provide no-pressure information that they can use to determine the type of treatment they'd most prefer.

The goal is to provide a warm, welcoming and comfortable setting so that individuals may feel relaxed and can look forward to the results of their treatment. The doctors are board certified and world-renowned plastic surgeons who have specialized in aesthetic medicine for over 2 decades.

For example, [Dr. Gary Alter](#), M.D. is a rare plastic surgeon certified by both the American Board of Plastic Surgery and the American Board of Urology. He is an Assistant Clinical Professor of Plastic Surgery at UCLA School of Medicine. Due to his unique training, he specializes primarily in male and female genital plastic surgery but also performs most aesthetic procedures. He has innovated and developed many new genital procedures that are now used worldwide. He has published 39 medical articles in major medical journals and authored twenty book chapters. He is co-editor of the major medical textbook [Reconstructive and Plastic Surgery of the External](#)
