

LunarGlo Lights Make the Apple Festival an After Dark Stand Out

Event organizers credit LunarGlo solar powered lights in their portable restrooms as making the Apple Festival cleaner, brighter and more enjoyable for all

ELKHART, IN, UNITED STATES, June 25, 2019 /EINPresswire.com/ -- With the festival and outdoor event season now in full swing, LunarGlo solar powered lights are helping make these venues brighter, cleaner and safer around the world. LunarGlo president Judy Barton said, "Once people experience what a big difference our solar powered porta-john lights make, they never want to go back to the "dark ages".

Illustrating this difference from an event organizer's perspective, Jeff Kitson, Executive Director of the Nappanee Area Chamber of Commerce said, "The Nappanee Apple Festival has had LunarGlo solar powered lights in our portable restrooms for several years now. It makes our event stand out by how clean and bright our portable restrooms are after dark. We have limited access to public restrooms and with over 100,000 visitors to our festival, the lights make the evening more enjoyable for all. I would highly recommend installing LunarGlo solar lights where ever you need light. They are amazing, durable and bright." The preferred [portable restroom](#) supplier for the Nappanee Apple Festival is J&K Septic in New Paris, Indiana.
