

# Discover the latest innovation and experimentation in pilot training at the Military Flight Training 2019 Conference

*Smi reports: Senior military officials from the Swedish Air Force and Italian Navy will be presenting at Military Flight Training 2019 Conference in London*

LONDON, UNITED KINGDOM , June 26, 2019 /EINPresswire.com/ -- The [8th annual Military Flight Training conference](#), taking place in London on the 9th-10th October 2019, will comprehensively cover the latest updates on rotary-wing, fast-jet, fixed-wing and ground crew training. As well as the use of immersive technologies, synthetic and live training for enhanced flight training capabilities. Delegates will hear updates from international training schools, leading OEMs and senior military officials who will be presenting at the two-day event.

For those interested in attending, the [£300 early bird](#) is expiring soon on Friday 28th June. Register online at <http://www.militaryflight-training.com/einpr5>

The poster for the Military Flight Training 2019 Conference features a dark blue fighter jet in flight against a green background. The text is prominently displayed in white and red. At the top, it says 'Smi Group presents the 8th Annual...' followed by the SMI logo. The main title 'MILITARY FLIGHT TRAINING 2019' is in large, bold, white letters with a red outline. Below that, the dates '9 - 10 OCTOBER' and location 'LONDON, UK' are shown in white. At the bottom, the website 'www.militaryflight-training.com' is listed in white on a red background. The overall design is professional and military-themed.

Military Flight Training 2019

'Innovation and experimentation in flight training' will be a key theme discussed at this year's conference, presented by two senior military officials from the Swedish Air Force and Italian Navy, who will present national approaches to pilot development, testing and evaluation:

Major Michael Rosenqvist, Project Manager, Military Flying Training System MFTS, Swedish Air Force will present 'Military Flight Training System: New Developments and Future Plans for Developing Capable Fighter Pilots'. The presentation will cover:

- Updates on the Military Flight Training System: Early results and lessons from the project
- Enabling effective training for specific Swedish air operations: Operating in the contested Baltic air-space
- Preparing pilots for the Gripen 39E, new methods of training and simulation for the platform
- Synthetic training for the Gripen's electronic warfare capabilities
- Future outlook for the MFTS

Commander Andrea Pingitore, Experimental Test Pilot, Italian Navy will present 'Testing and

Evaluating Pilot Performance for Maritime Flight Operations'. The presentation will cover:

- Building effective models for pilot test and evaluation
- Bringing a human factors approach to flight training
- Data analysis in support of effective training and development

The brochure with the two-day programme and past attendee list can be found on the event website at <http://www.militaryflight-training.com/einpr5>
